

Transforming climate planning into progress

An overview of **ClimateOS™**

Jeff Goens, July 2030

climateview.global

About ClimateView

We empower cities with **authoritative living climate action plans**. By revealing the optimal path and making the economic case for their climate transition.

Founded

2018

Markets

6+ countries
30+ cities

Some Pioneering Cities

London Islington, Uppsala,
Quebec, Basel, Newcastle &
Mannheim

Greater pressure to break-through existing barriers

1

Overcoming data paralysis

How can you act with confidence when full data coverage is impossible?

2

Complexity of stakeholders

How do you quickly align everyone when every emission activity is independent?

3

Making the economic case

How do you outline the financial case alongside the emissions reduction?

What if you could collaborate at scale?

With your team...
Across departments...
With industry & community...
With other cities...

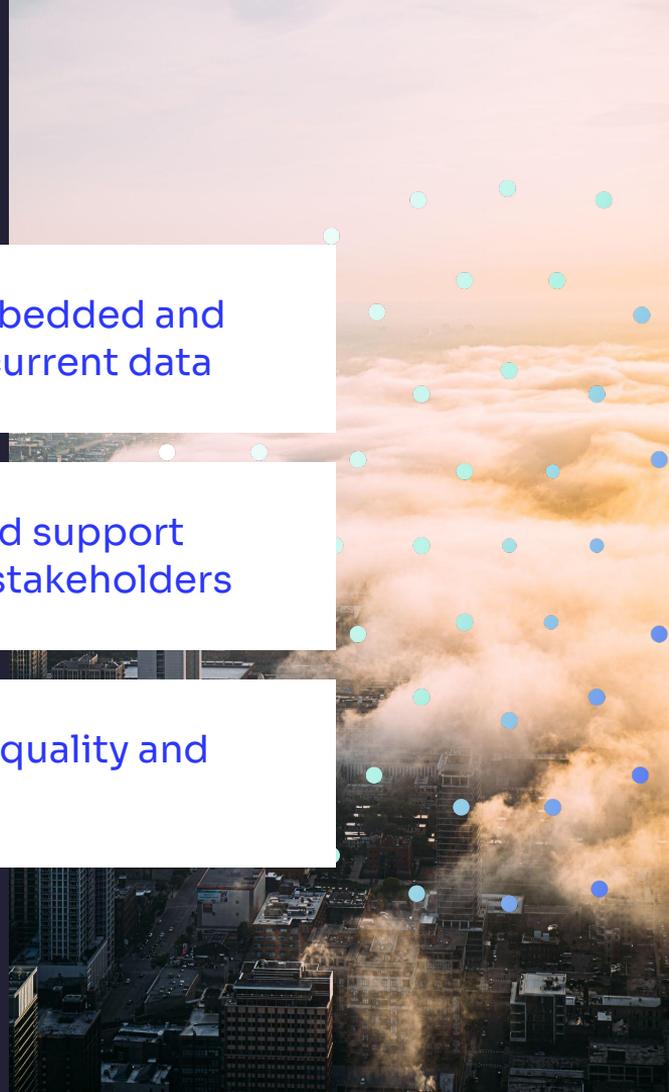

-  Models and simulations
-  Data & insights
-  Policies & implementations
-  Collective reasoning

Gain **authority** and
make progress like
never before

Always be embedded and
backed with current data

Have input and support
from diverse stakeholders

Increase plan quality and
fundability

Creating progress

Plan quality creates authority

Delivery time

**Faster
to delivery**

Risk mitigation

**Improved
certainty &
adaptability**

Investment

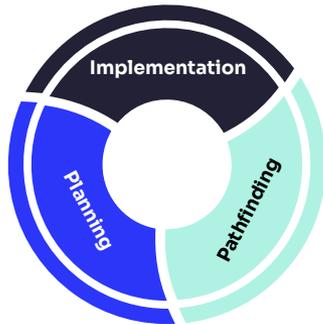

**Easier to
secure
funding**

Introducing **ClimateOS**

The platform to transform your CAP into a responsive collaborative workflow

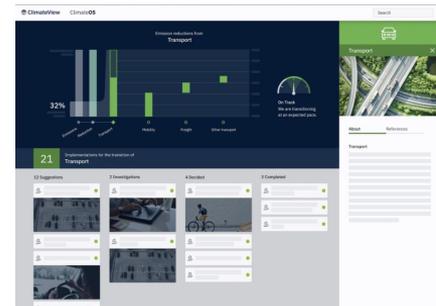

Iterative Framework

Powerful data and modelling

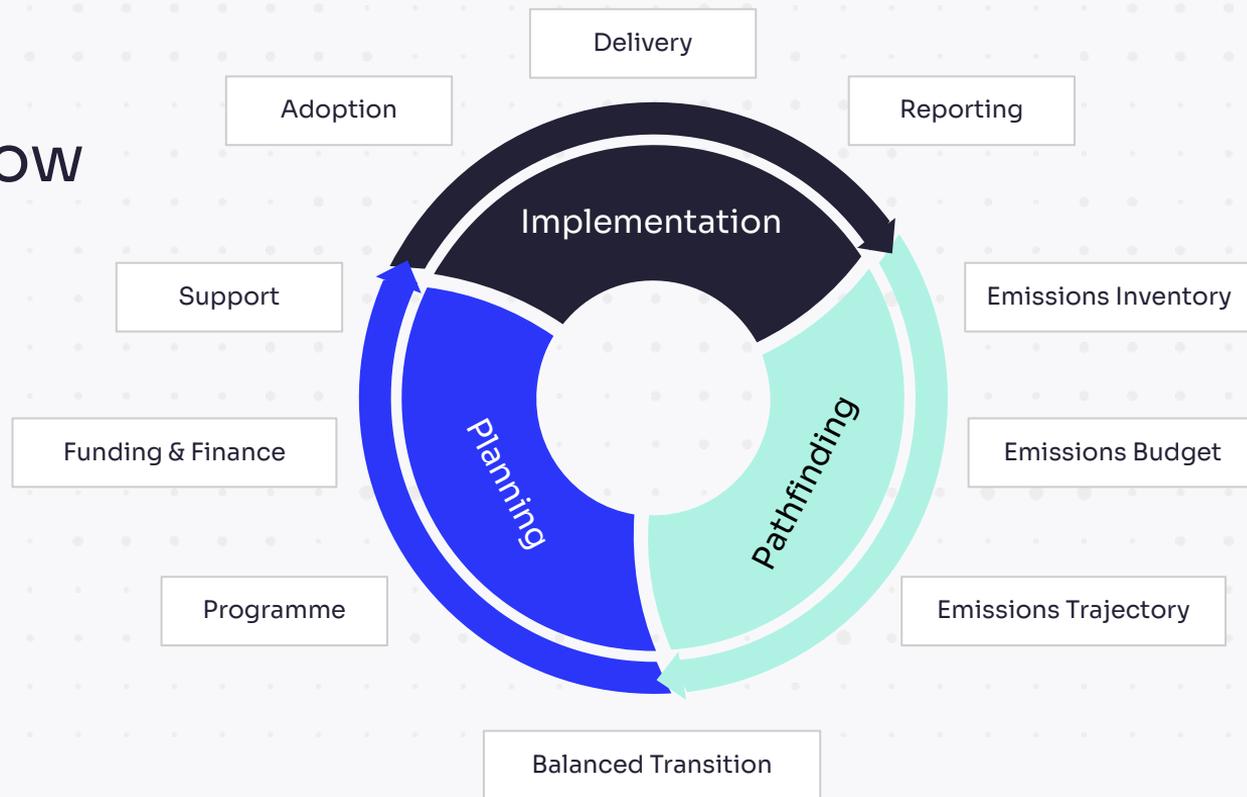

Unique visualisation

An integrated platform

Iterative workflow

An integrated platform

Comprehensive toolkits

Activity Mapping:

Pathway Discovery:

Action Lab:

Managing & Monitoring Progress:

Climate Board:

Knowledge Base:

Emissions budgeting & trajectory

Instant emissions activity balancing

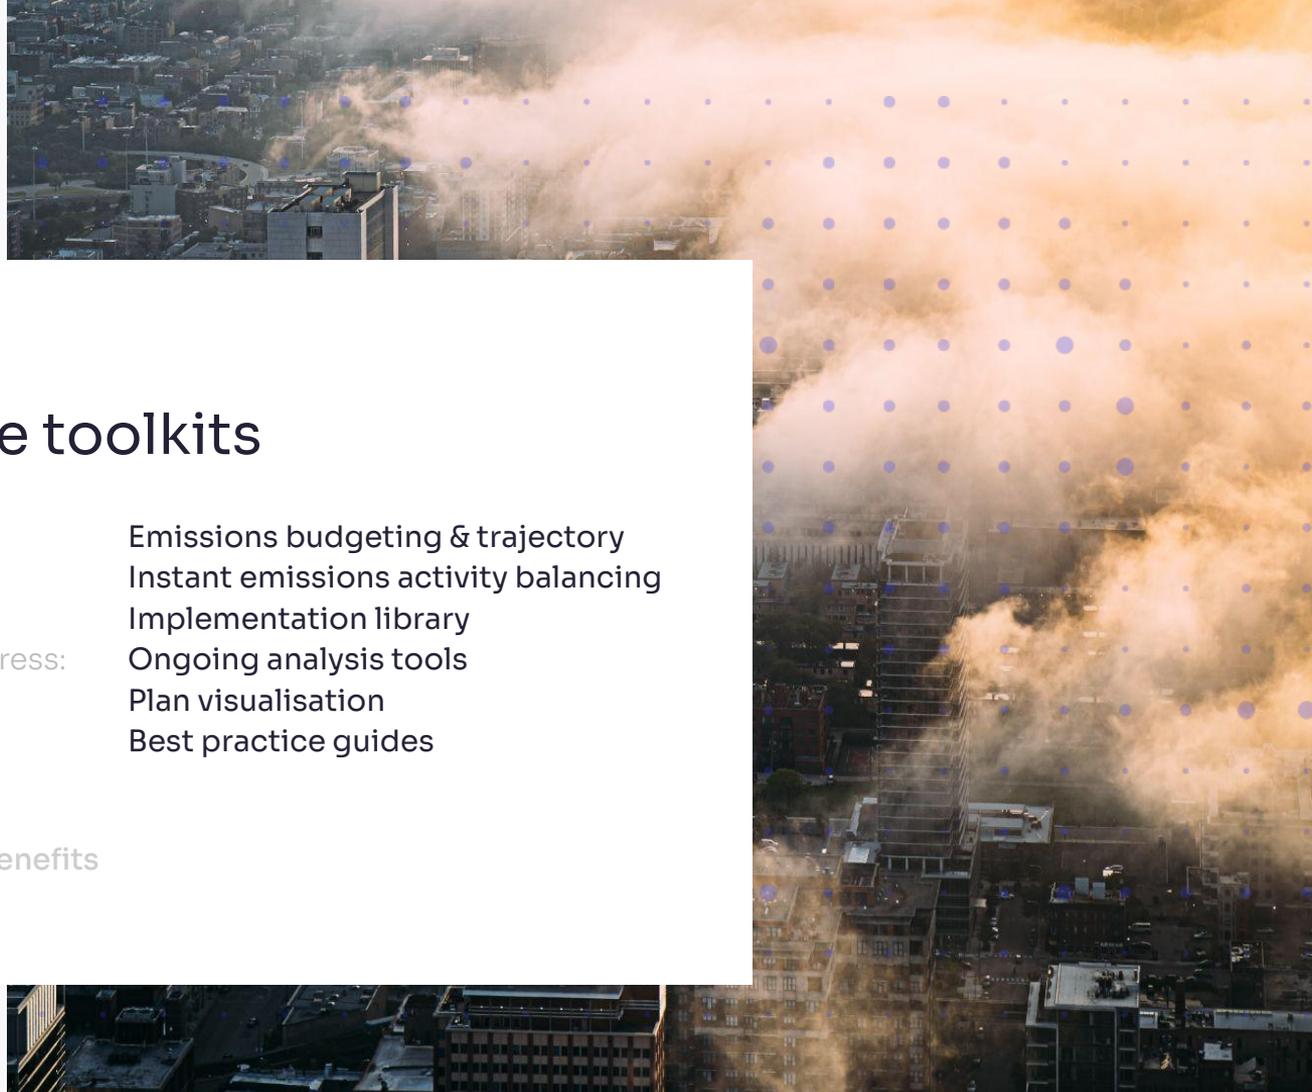

Implementation library

Ongoing analysis tools

Plan visualisation

Best practice guides

coming soon **Cost and co benefits**

The platform for collaboration

Join the network of pioneering cities

Thank you
