

Cloud Vision Establishment

A strategy engagement for business leaders to plan cloud adoption

Before deciding which Cloud services your organisation is going to use, it is essential to understand your desired outcomes, how the cloud will deliver them, and what it means to your business.

Where do you start?

The first step is to establish a cloud vision and strategy that meets your priorities without negatively impacting operations.

How can we help?

Our Cloud Vision Establishment is a collaborative two-week engagement with our Cloud specialists and your stakeholders.

Uncover your reasons for adopting the cloud. Identify the critical business events driving your decisions. Define your business outcomes and what success looks like.

Why do this piece of work?

- + Understand why and how the cloud is beneficial to your business
- + Connect what is driving your business to your cloud landscape
- + Align your leadership and stakeholders with your cloud adoption program
- + Understand how cloud can support IT security and resilience
- + Identify which workloads are suitable for the cloud now and in the future
- + Master the cloud on low-risk workloads today with a strategy for repatriation to the NZ data centre when it comes online

What do we do?

A series of short workshops will cover:

Motivations and drivers

- + We spend time with leadership and stakeholders to understand the business challenges and opportunities driving your cloud adoption decisions

Outcomes

- + We connect your cloud adoption drivers to tangible business outcomes that can be measured to gauge success

Technical objectives

- + Discover what technical flexibility, efficiencies, and capabilities the cloud provides
- + Prioritise against security, scalability, availability, security and compliance, and capacity optimisation considerations

What you get

- + Your Cloud Vision strategy designed and documented
- + A draft for your future cloud landscape that balances risk vs reward
- + A high-level adoption plan of which workloads are suitable for migration to the cloud now.

Duration and budget

Typical engagements take 2 weeks at a cost of \$30,000 (excluding GST)

Scope of the engagement will be defined prior to finalising costs and timelines.

Cloud Adoption pathways
