

Delivering first-class Data & AI as a Service

Put your mind at ease, by operating and evolving your Data & AI Platform with the Adatis Managed Service

The need to harness the potential of new data sets and the ever-changing range of available technologies creates the double-edged challenge of operating an efficient data analytics platform and evolving to maintain competitive advantage.

Adatis provides a specialist and modern managed service built on DevOps practices and Microsoft Azure Data Platform, Power BI and SQL Server BI capabilities. That is tailored for the efficient operation and effective evolution of your data analytics platform.

Data & Analytics Experts

Services team integrated across the UK and Bulgaria are experts in the Microsoft SQL Server BI capabilities, Power BI, and Azure Data Platform covering both Data Analytics and Cloud Infrastructure.

Specialist services

Service catalogue includes regular assessment and maintenance of the efficiency of data processing flow, analytics maintenance such as data science model re-training and visualisation updates, and advice and guidance on new features in Azure Data Platform, Power BI and the SQL Server BI capabilities with a view of reducing operation costs.

Operate & Evolve

A commitment to Continual Improvement, consideration of supportability at every step and adoption of DevOps methods ensure the service evolves with your operation and business to maximise value.

A specialist, modern managed service focused on the efficient operation and effective evolution of your data analytics platform.

Overview of Data & AI as a Service

Data & AI as a Service Plans

We have service plans to provide guidance on the complete catalogue of services we deliver. Based around an Essential, Established and Enterprise model these ensure the service we provide also evolves with your business and platform.

Each plan can be customised with several add-on services based on a flexible Call-Off Unit approach and extended to incorporate Microsoft Cloud Solution Provider (CSP) services including Azure, Office 365 & Power BI provisioning and management.

Adatis offer professional services specialising in data analytics, from data management strategy and consultancy through to world class delivery and managed services.

With offices In London, Farnham and Sofia they have been delivering innovative and successful solutions for clients since 2006.
