

# Synapse Sandbox

## Perform Pragmatic Proof of Concept with Synapse

Synapse is the new modern data platform solution from Microsoft with the best price-performance ratio in the market. Synapse is also the only cloud native analytics service that makes data warehousing, machine learning, real time analytics and data visualization available within one integrated data platform environment.

Discover the possibilities of Synapse with the Motion10 Synapse Sandbox. From the Synapse Sandbox you can make a well-founded consideration for your new modern data platform, based on compatibility of systems, architecture principles and technical and functional requirements and wishes.

### Use the Synapse Sandbox to gain insight into:

- The technical feasibility
- The functional feasibility
- Adoption of Synapse within the team
- The added value based on your Use Case

**With the Motion10 Synapse Sandbox you have a working Synapse environment within 1 day**

### Advantages of Motion10 Synapse Sandbox:

- ✓ Save time with the rollout of Synapse
- ✓ Make use of Motion10 and Microsoft best practices
- ✓ Define and evaluate joint success criteria
- ✓ Support by Synapse Engineer
- ✓ Possibility of training and knowledge transfer
- ✓ Ready-to-use demo dataset or your own data
- ✓ Get started hands-on with Synapse right away
- ✓ Tailored advice

### The approach

### Want to get started right away?
