FUTURE-READY APPLICATIONS

Start in Microsoft Azure

Modernization & Innovation Engagement

Our Azure Application Modernization and Innovation Engagement provides an in-depth analysis of the work effort and consumption cost to modernize up to five applications in Azure.

Included in Your Modernization & Innovation Engagement

- » An assessment of your applications to determine the migration readiness of your applications or databases for Azure PaaS services such as Azure App Services, Azure SQL Database, Azure SQL DB, and Azure Kubernetes Services.
- » List of recommendations and areas to remediate.
- » Guided deployment of an initial Azure landing zone.
- » List of cloud governance recommendations per Microsoft's Cloud Adoption Framework.

Customer success, no exceptions!

"Coretek has been an outstanding partner to support both our technology and business teams as we have navigated the migration of our production application infrastructure from a private data center to Azure while making significant security and performance enhancements. This project was a huge undertaking during which Coretek's experience, technical savvy, and commitment to completion have been essential and unwavering. We look forward to continued engagement with Coretek and consider them a highly reliable and effective part of our technology team."

—John Gonzalez, Chief Operations Officer, Alluma
