

# Microsoft Viva Connections Quick Start

## What's it about?

Microsoft Viva Connections is your gateway to a modern employee experience – get ready to inform, engage and empower your organisation. A modern SharePoint Online intranet is the key dependency for Viva Connections.

We've designed 'Microsoft Viva Connections Quick start' specifically for organisations who already have a modern SharePoint Online intranet to plan for and implement Viva Connections.

### Analyse your current state

We'll review your current modern SharePoint Online intranet with a view to identifying any blockers or changes that may be required to enable Viva Connections. We'll review or develop your global navigation and uncover use cases for the Dashboard.

### Configure and implement Viva Connections

We'll configure and implement the Viva Connections application in your Microsoft 365 tenant. We often like to work along side your IT team ensuring we use the opportunity for knowledge transfer.

### Training and communications

Along side your team, our expert adoption specialists will develop communications for you to announce the roll out of Viva Connections. Additionally, we'll provide you with a Viva Connections quick reference guide.

*"Working with Engage Squared as our partner, we've really felt like they're our trusted advisors – and I don't think we would have got to that level of adoption, and training, and support without Engage Squared being there on that journey with us Especially during Covid-19"*

*Dee Eldridge, Digital Workplace Manager, Bupa*  
[Read the case study](#)

## Expected outcomes

- A review of your existing intranet to inform Viva Connections implementation pathway
- A list of Dashboard tile configuration recommendations
- The Viva Connections app configured and deployed to your tenant
- A Viva Connections communication to support the launch announcement
- A Viva Connections quick reference guide in your organisational branding (1 page)

**Investment**  
\$7,500 AUD

**Timeframe**  
2-3 weeks
