

# Hitachi solution Managed service for Azure Cloud

## Expert support for your Microsoft Azure solutions

To help businesses stay ahead of the competition, today's services providers (SPs) have adopted and maintain cloud technologies. Hitachi Solutions offers Support Services for cloud that let you leverage our cloud resources to reduce costs, improve performance, help make decisions, and link business imperatives to functional deliverables.

### What is Hitachi Solutions Managed Services for Azure?

Hitachi Solutions is a business performance improvement network. It provides expert support for the entire Microsoft Azure cloud, including Azure AD, Virtual Networks, SQL, Azure SQL, Virtual Machines, Web Apps, Microsoft 365, enterprise mobility and security, and more.

### The Value

- Expert advisory for your Azure cloud
- Custom tailored global operations
- Certified resource for Azure and O365

### The Services

- Manage all cloud services from a single point
- Proactive monitoring and alert management on azure
- Leverage our expertise as a Microsoft Gold Certified Partner

### The Outcomes

- Reduce maintenance costs
- Minimize risks
- Improve performance with optimization services
- Maximize the value of your Microsoft Azure investments

### What you need

**Cost-Effective:** Eliminates the need to purchase expensive management systems and equipment.

**Global Support:** Extensive resource network aligns to your hours of operation while supporting global operations and offices in other geographies.

**Flexibility:** Monthly or fixed Support service ranges from dedicated business hours to 24/7/365 SLAs.

**Complete Coverage:** Our services cover Operations (Azure IaaS, PaaS, and SaaS), Modern Workplace (M365), and deep expertise in security and Endpoint Device Management.

## Hitachi Solutions Offers

Azure Cloud Enablement Service for your IT infrastructure to be aligned with your business goals and objectives. Moving to cloud computing may reduce the cost of managing and maintaining your IT systems. Rather than purchasing expensive systems and equipment for your business, you can reduce your costs by using the resources of your cloud computing service provider.

- **Monitoring:** Single pane dashboards, smart alerts, proactive monitoring, and custom reports
- **Governing:** Cost monitoring, service reporting, resource tagging
- **Configuring:** Deployment templates and compliance policies backed up by a highly skilled support team
- **Agility:** We deliver features through automation to offer services in the cloud
- **Integration:** Integrate cloud-based and on-prem applications as part of an evolving hybrid cloud environment
- **Assessment:** Offer you deep dive to understand existing on premises or other cloud environment to assess and define transformation roadmap to Microsoft Azure

## Innovation & Growth

Drive innovation and accelerate your business's growth with our full spectrum of digital, analytics, and enterprise cloud services. Whether you've already started or are yet to begin your cloud migration, the right partner can accelerate your company's digital transformation and empower your business to stay ahead of the competition. Hitachi Solutions Managed services is that partner.

## Azure Solutions

**Azure Active Directory:** Synchronize on-prem directories and enable single sign-on.

**Azure DevOps:** Services to support teams to plan work, collaborate on code development, and build applications.

**Azure Sentinel:** Cloud native SIEM and intelligent security analytics that work to prevent threats.

**Azure Synapse:** Limitless analytics service with unmatched time to insight.

**SQL Data Warehouse:** A centralized repository of data from one or more disparate sources.

**Virtual Machines:** A computer within a computer that provides on-demand and scalable computing resources.

## The Azure Advantage

The Azure Cloud Platform is a complete set of advanced tools, technologies, and expertise tuned to maximize the value of the cloud model. Azure has strong PaaS capabilities, which are an important piece of cloud infrastructure today.

Microsoft Azure provides application developers with the environment, tools, and building blocks that they need to rapidly develop and deploy wherever they want. Then, using the tools, applications, and frameworks of their choice, they can manage the application through new cloud services.

As part of the 110-year-old Hitachi Ltd. family, we uphold its legacy of quality, integrity, and excellence. This strong foundation allows us to build trust with our clients, attract the best and brightest people, and create a culture rich in innovation. Through industry-first cloud solutions, we help organizations everywhere to be better every day.
