

Helping cities and organizations become safer, smarter, and provide a better experience

Hitachi Smart Spaces enabled by Lumada Video Insights for retail, campuses, transportation, and public areas are the building blocks for smart, safer, and thriving cities.

Organizations can leverage modular solutions that combine IoT, big data, analytics, and machine learning with Hitachi Video Analytics to improve safety, customer experience, and operational efficiency.

Safety and security

Enhance public safety and security with connected intelligence.

Operational efficiency & reduced waste

Enables cities and organizations to drive operational efficiencies

Citizen & customer experience

Empowers cities and organization to improve customer service and adapt better and faster to change

Optimizing traffic management and quality of life in Las Vegas

“ We monitor the heart beat of our streets. We [use] systems from Hitachi that actually look at the living street as an ecosystem.”

Michael Sherwood
Director of Technology and Innovation
City of Las Vegas
