

Workplace Analytics Services: 4-week assessment

Discover your organization's collaboration patterns, get analysis and actionable insights, and identify the biggest opportunity areas and how to tackle them.

Microsoft Workplace Analytics gives your organization a way to measure the day-to-day actions of your end users that drive business outcomes. Get started with a partner who can help you navigate the platform and drive results. Our Collaboration Assessment is a great place to begin your journey with Workplace Analytics. The assessment provides:

- Discovery of your organization's collaboration patterns
- Insights on meeting culture, manager effectiveness and employee engagement
- Identification of biggest areas of opportunity with an actionable plan for addressing them
- Two-day Workplace Analytics Academy analyst essentials training

Assessment benefits include:

- Discover your organization's collaboration patterns.
- Get analysis and actionable insights across three common business outcomes.
- Identify the biggest opportunity areas and how to tackle them.
