

Close the gaps in your cloud security

PSM Partners: M365 Identity and Security Assessment

PSM is the expert when it comes to helping your company achieve flexibility, resiliency, and cost-effectiveness in the face of the dizzying array of modernizing IT trends. This offering is made to empower our clients to get the most out of their investment and work with the confidence that their data is secure. Additionally, with our deep understanding of the MS ecosystem, we can often find funding to help get projects started.

WHAT WE OFFER

By conducting customized assessments that will help uncover cumbersome business processes and security gaps within device and data management, PSM brings its powerful expertise to the table.

PSM will analyze your existing M365 environment within a robust framework to give you a roadmap that helps you move forward. This is accomplished utilizing M365 technologies and PSM's own proprietary automation technologies.

Understand current remote access and mobile device management (MDM) solutions and best practices, and how to enable remote workers in your organization without compromising on security.

The Microsoft 365 product suite offers enhanced, intelligent security for a host of processes in the modern workplace, allowing you to manage several processes at once and omitting the need to perform repetitive tasks.

WHAT OUR CUSTOMERS ARE SAYING

“PSM Partners allowed us to rapidly update, deploy and optimize Microsoft security solutions while upskilling our internal team and providing immediate benefits to the organization.”

– Gregory Van Den Ham, IT Director, YMCA of the USA

Microsoft 365

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.

KEY USE CASES

BUSINESS-CLASS EMAIL

Build anything from lightweight websites to multitier cloud services that scale up as your business grows.

CLOUD STORAGE

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

MEET ONLINE

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

COLLABORATE AND CHAT PRIVATELY

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

WHY MICROSOFT 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on as many as five PCs/Macs and five mobile devices. Microsoft 365 provides an array of plans to fit the right capability needs and price points for every user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing that your services are available when you need them with a financially backed, 99.9 percent uptime service level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.
