# Enabling Business Outcomes

## How We Can Help

# Your goal is our goal.

If you're looking to generate new income, save time, and money, or gain flexibility and speed of innovation, all while staying ahead of your competitors – we can help!

## 1

### Consultation

After learning about your business, our experts will advise you on the best way to move forward – ensuring your software will be future-proof and of the highest quality.

## 2

### Development

We're able to create any kind of custom software solution to meet an endless range of needs and ideas. We always choose delivery methods best suited to your business case.

## 3

### Maintenance

We provide a full range of quality assurance services to ensure your solutions adhere to the high standards according to which they were created.

# Customer Success Stories

*We partnered with PGS Software to significantly expand our professional development capacity and bring deep cloud expertise to support and enable our Deloitte Solutions Factory organisation in the UK.*

*PGS work highly collaboratively with us to help industrialise our propositions and deliver scalable and robust leading edge solutions that provide significant value for our clients.*

Andy Whitton,
Head of Risk Analytics Solutions & CTO Risk Advisory, Deloitte

_Really an impressive achievement! Reaching Advanced level in such a short time is outstanding. I am humbled to have PGS Software as one of our fastest growing partners in the region._

Bojidar Krapchev,
Alliances Lead CEE, Amazon Web Services

*Having worked with PGS Software before, we knew that they understood the complex technical environment of modern cinema exhibition and would be able to deliver what we required.*

Rich Phillips,
Chief Technology Officer, AAM

*After a comprehensive research job, we chose PGS Software as our preferred partner for software development, and we are very happy with that decision today.*

*We now have a platform that is highly flexible, future-proof, and with a predictable and low monthly cost.*

Daniel Chaibi,
Chief Technology Officer, Foodback

# Why Us?

PGS SOFTWARE

**2005**
Year founded

**~568**
Clients worldwide

**2008**
Publicly listed

**5th**
Largest software
supplier in Poland

**Paweł Gurgul**
Managing Director

**Wojtek Gurgul**
CEO

**When we founded the company in 2005, our goal was to create a company in which we would both like to work.**

We wanted it to be a place that gathers well-educated people who share the same values and are passionate about programming.

It worked!
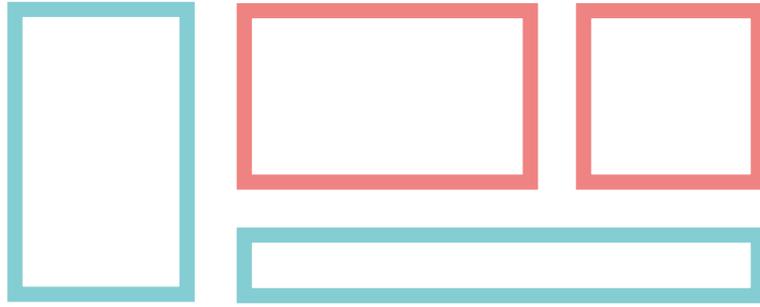

# Development.

## We nurture our employees' professional growth.

The people who develop your software are dedicated and ambitious. Your solutions will meet the highest industry standards with the use of best practices.
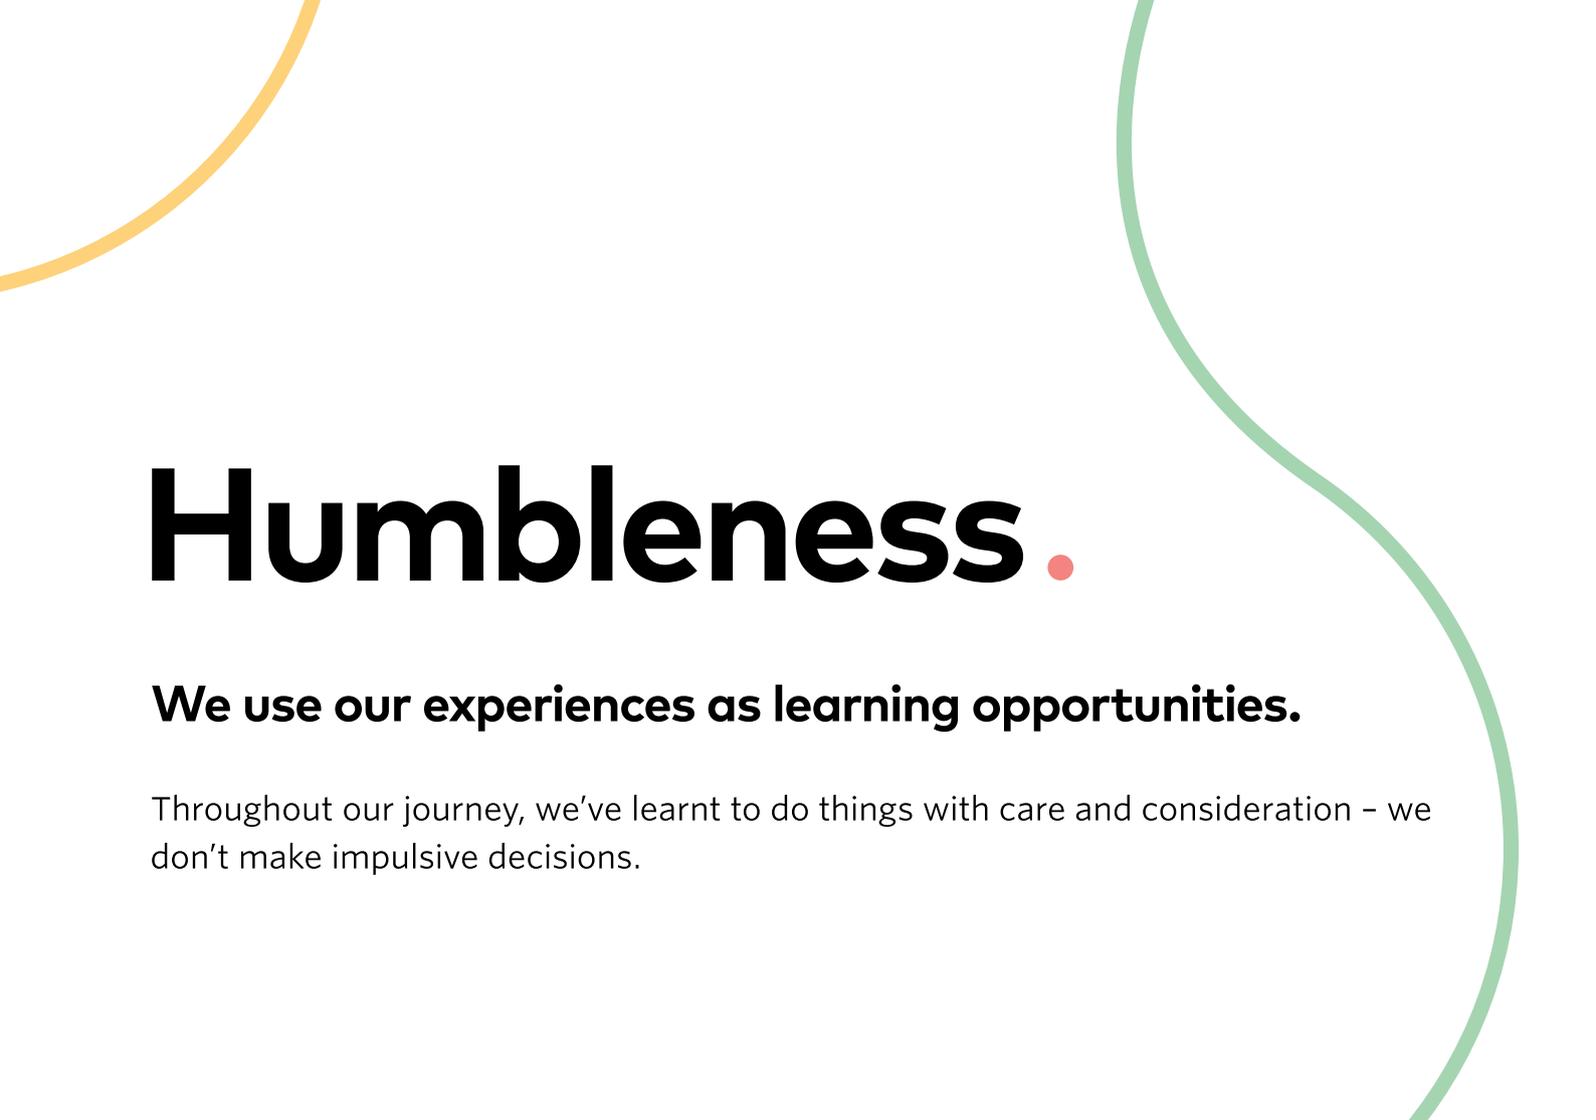

# Humbleness.

## We use our experiences as learning opportunities.

Throughout our journey, we've learnt to do things with care and consideration – we don't make impulsive decisions.

# Integrity.

## We act fairly and communicate in an open, honest way.

Our project management methodologies have been rated higher than those of a leading global vendor*. You'll always know what's going on with your project.

* Independent IDC Report 2018.

# We are big enough to scale and small enough to care.
