

AZURE ASSESSMENT: CLOUD HEALTH CHECK

Learn how your Azure environment is aligned to Best Practices and gain actionable insights

On a scale from 1 to 10, how confident are you that you're maximizing the return on your Azure investment? That you're meeting or exceeding best practices?

THINK PERFORMANCE. THINK AVAILABILITY. THINK SECURITY. THINKS COSTS.
DO YOU SEE A NEED TO ...

Optimize Azure deployments?

Improve cloud utilization?

Maximize cloud security?

Control Azure costs?

If you need to move the needle in any of these areas, the **Azure Cloud Health Check Assessment** from Aptum will provide real value for your planning and decision-making. This overarching assessment will give you new insights along with an action plan to optimize your Azure environment to reflect industry best practices.

1

BENCHMARK YOUR CURRENT AZURE ENVIRONMENT

Get a Best Practices Report that provides a detailed visualization of your Azure environment, resources and configuration. You'll gain clarity on the details of your solution, and any gaps that exist compared with a best practice baseline.

2

VISUALIZE YOUR RESOURCES AND COSTS

The Assessment provides an executive summary of your Azure resource configuration and billing data.

3

COMPLIANCE REVIEW AGAINST THE CIS BENCHMARK

You get a full analysis of your Azure environment against the CIS benchmark. We will recommend next steps you should take to ensure your critical data remains secure and you maintain an appropriate governance posture.

4

GAIN ACTIONABLE INSIGHTS

Detailed reports and documentation will be tailored specifically to your Azure environment, providing actionable insights to enhance performance, availability, security and more.

5

GET AN OPTIMIZATION ACTION PLAN FOR FUTURE SUCCESS

Practical insights from Aptum's Azure experts that identify not just what priorities you must address, but also an action plan for the steps you should take today to align your Azure environment to best practices.

HOW IT WORKS

Over just 10 days, Aptum's Professional Services team turns large volumes of data into actionable insights! The Azure Cloud Health Check Assessment encompasses the following components:

- 1 Assess:** We survey of your Azure environment to validate that fundamental services (such as Azure Advisor, Security and Monitor) are reporting effectively.
- 2 Analyze:** We analyze your data, producing a report highlighting and detailing gaps measured against best practices.
- 3 Recommend:** We provide high-level recommendations for foundational optimizations actions to reduce costs, improve security, enhance performance and availability.
- 4 Consult:** We hold a debrief session to help shape an action plan including next steps.
