

## APPLICATION MODERNIZATION

**As more organizations are digitally transforming themselves, they are looking to modernize their legacy applications with Azure Platform as a Service.** App Modernization with a cloud platform like Azure requires a specialized skill set. Using Microsoft's Cloud Adoption Framework, Optimus Information assesses where you are now and delivers a smooth and value-focused roadmap for your successful app modernization.

Jump start your application modernization with an assessment to evaluate your application's current state and how to best leverage the use of Azure App Service and Azure SQL Database.

### OUR APPROACH

- Conduct a series of workshops with executive level business and IT leadership
- Conduct one-on-one information gathering with key business and IT stakeholders
- Identify common goals and areas of misalignment
- Capture current state of infrastructure and applications
- Document current and future business and technology challenges and needs
- Prepare detailed assessment report

### WHAT WE ASSESS

- Architecture and Design
- Development and Code Quality
- Software Configuration Management
- Governance
- Deployment and Operations
- Testing and Quality Assurance

### DELIVERABLES

- We will deliver a final report that captures:
- Application architecture diagram including description/ specification of the various components
  - Software assessment audit report covering all areas within scope
  - Final state architecture to address the gaps identified in the assessment audit
  - Recommendations to reduce the downtime required for new releases
  - Effort estimates and project plan to implement the recommendations

3 - 4 WEEKS | \$15,000
