

# Discover Windows Virtual Desktop with Piksel Group

## ABOUT PIKSEL GROUP:

Piksel Group has more than 20 years of experience in delivering tailored, cross-vertical, fast, and successful IT modernization for clients in the public sector and broadcast and media, telecommunications, retail, transportation, and healthcare industries.

### *What our customers are saying*

*"Within two weeks of having our initial exploratory conversation, we had a scalable WVD environment that was leveraging multifactor authentication and conditional access."*

*– Mehmet Erhan, NLP Technical Lead for Digital, NHS NCL Clinical Commissioning Group*

## WHAT WE OFFER

Piksel Group's free two-hour Microsoft Windows Virtual Desktop (WVD) briefing will showcase how WVD can form a key part of your IT modernization strategy.

Delivered by one of our certified Microsoft Azure and WVD cloud this briefing will provide you with an overview of Windows Virtual Desktop.

Topics covered include a deep dive into the range of WVD functionality and capability, a comparison with other VDI technologies, and a summary of licensing and implementation costs.

By the end of the session, you'll have a full understanding of how your organization can benefit from WVD, and will be ready to take the next steps towards planning your deployment

# Why Azure?

## Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you a head of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

## Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

## Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

## Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1b+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
