

# PwC's Research Credit Solution (RCS)

Specialized Tax Services (STS)

## PwC's Research Credit Solution

RCS is an enterprise platform that helps enhance the way we provide Research and Development (R&D) services to our clients. RCS provides a centralized location for the management of an R&D study and can be configured to accommodate many project approaches. The web interface is intuitive and easy to understand, which allows our clients to efficiently collaborate with us on their R&D projects.

## Reduced burden for your people

Intuitive, time-saving features that allow survey participants to efficiently and more accurately complete surveys with limited guidance.

## Real-time project insights

Built-in dashboards and visualizations give you a quick, clear view of project status, QRE, and information outstanding. Throughout the study, real time reports are available for a snapshot of progress.

## Easy-to-use

Web-based solution allows your people to provide necessary information whenever works best for them through an intuitive, user-friendly online system.

## Powerful administrative capabilities

Built-in dashboards and visualizations give you a quick, clear view of project status, QRE, and information outstanding.

## Enhanced Quality

Data extraction, reporting, and documentation processes add to data quality and can improve overall project efficiency. These processes can be leveraged to help streamline IRS and State Regulatory examinations.

## Secure

Dedicated pages to load, populate, and edit data secured using Transport Layer Security and Transparent Data Encryption.
