Enterprise
Grade

BlakYaks

Major focus areas

A

Microsoft Azure

Enterprise grade Azure-hosted, secure, compliant platforms.

B

Containers & Serverless

Container eco-system technologies like Kubernetes, Docker, Rancher, Openshift, Portworx.

C

DevOps & IaC

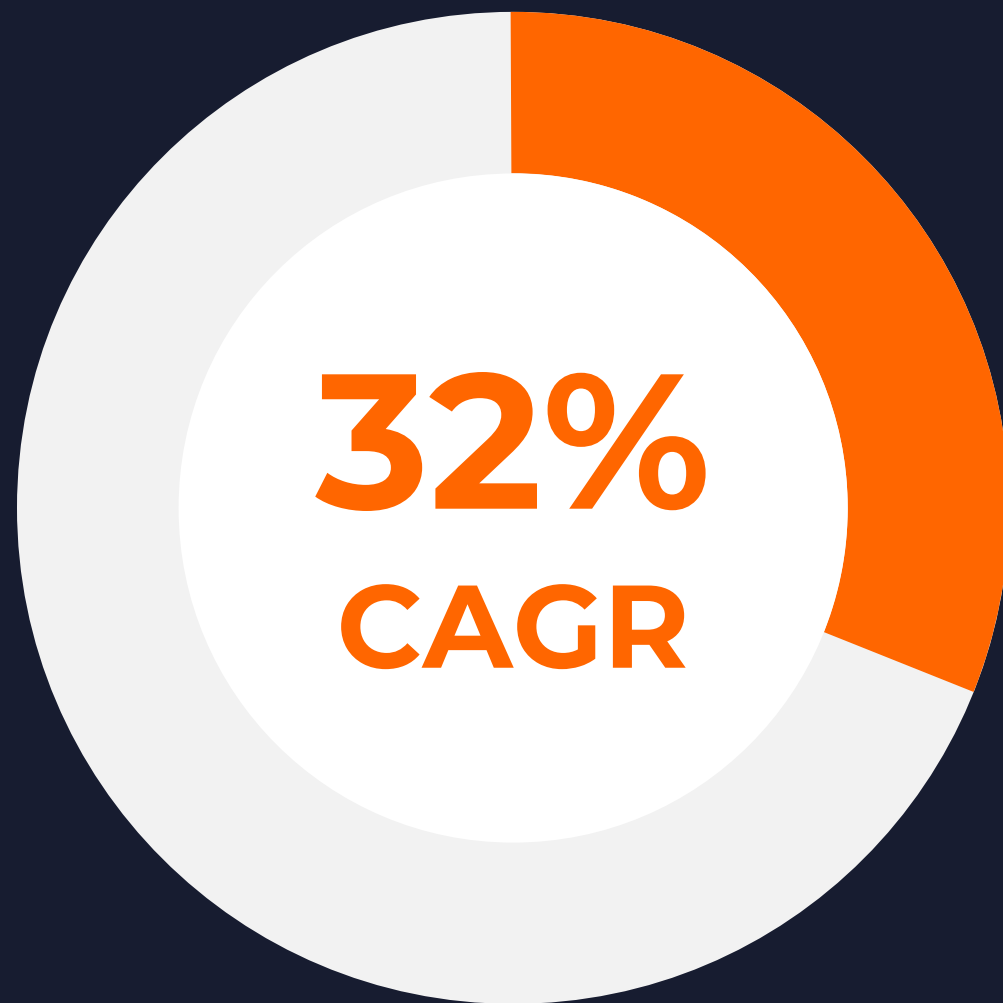

Enterprise grade DevOps & automation for environments that need to scale efficiently

D

Security & compliance

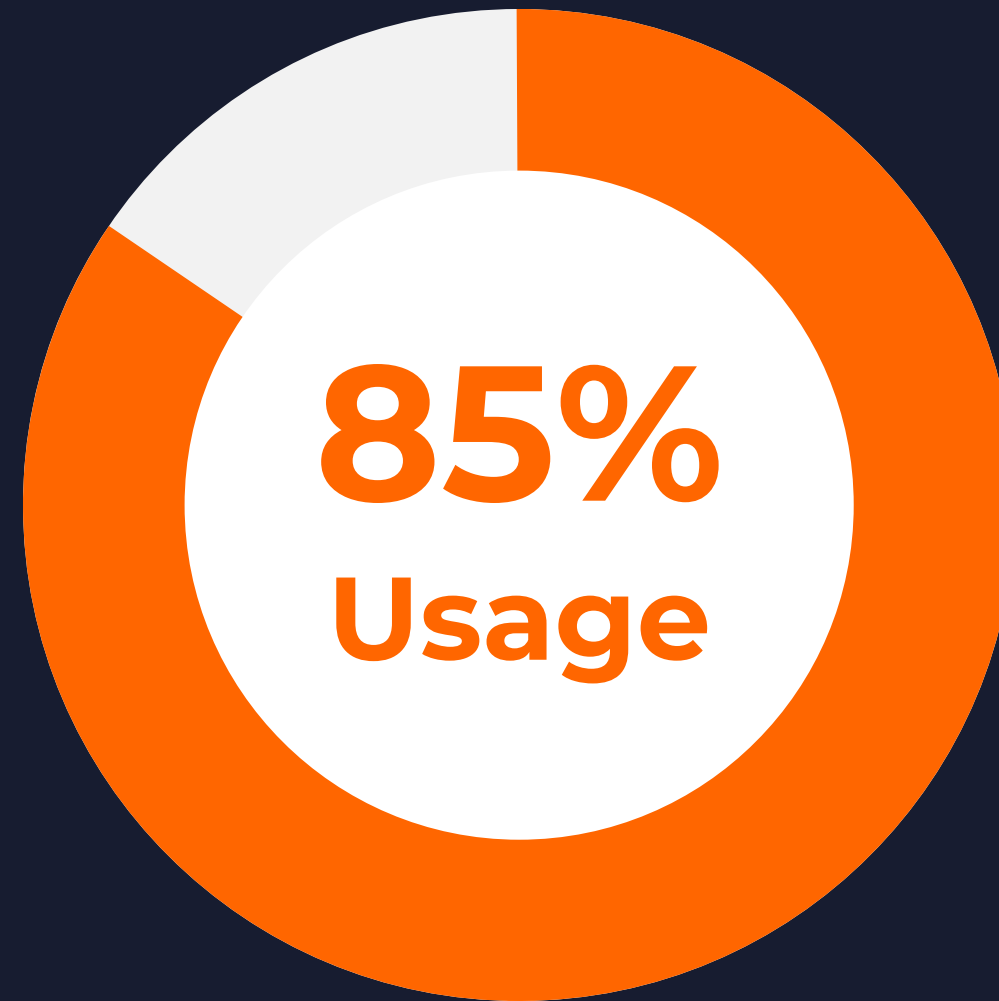

CIS benchmarked production platforms that are secure by design & governed with policy.

Container Market Analysts' insights

2018 - 2023

CAGR in Container market,
MarketandMarkets, May
2018

35% to 85%

Containers in production,
By 2025
Gartner, June 2020

\$1.2Bn to \$8Bn

Growth in container
market, Allied market
research, May 2020

Rise of containers, serverless, PaaS

Big questions

01

Transition from IaaS

What proportion of your future estate will not be hosted on traditional IaaS?

02

Portability

How important is portability of services and workloads – multi / hybrid cloud enablement

03

Software defined

How serious are you about software defined and IaC at all platform layers

04

Storage strategy

Plans to switch to service oriented, software defined platforms that run anywhere

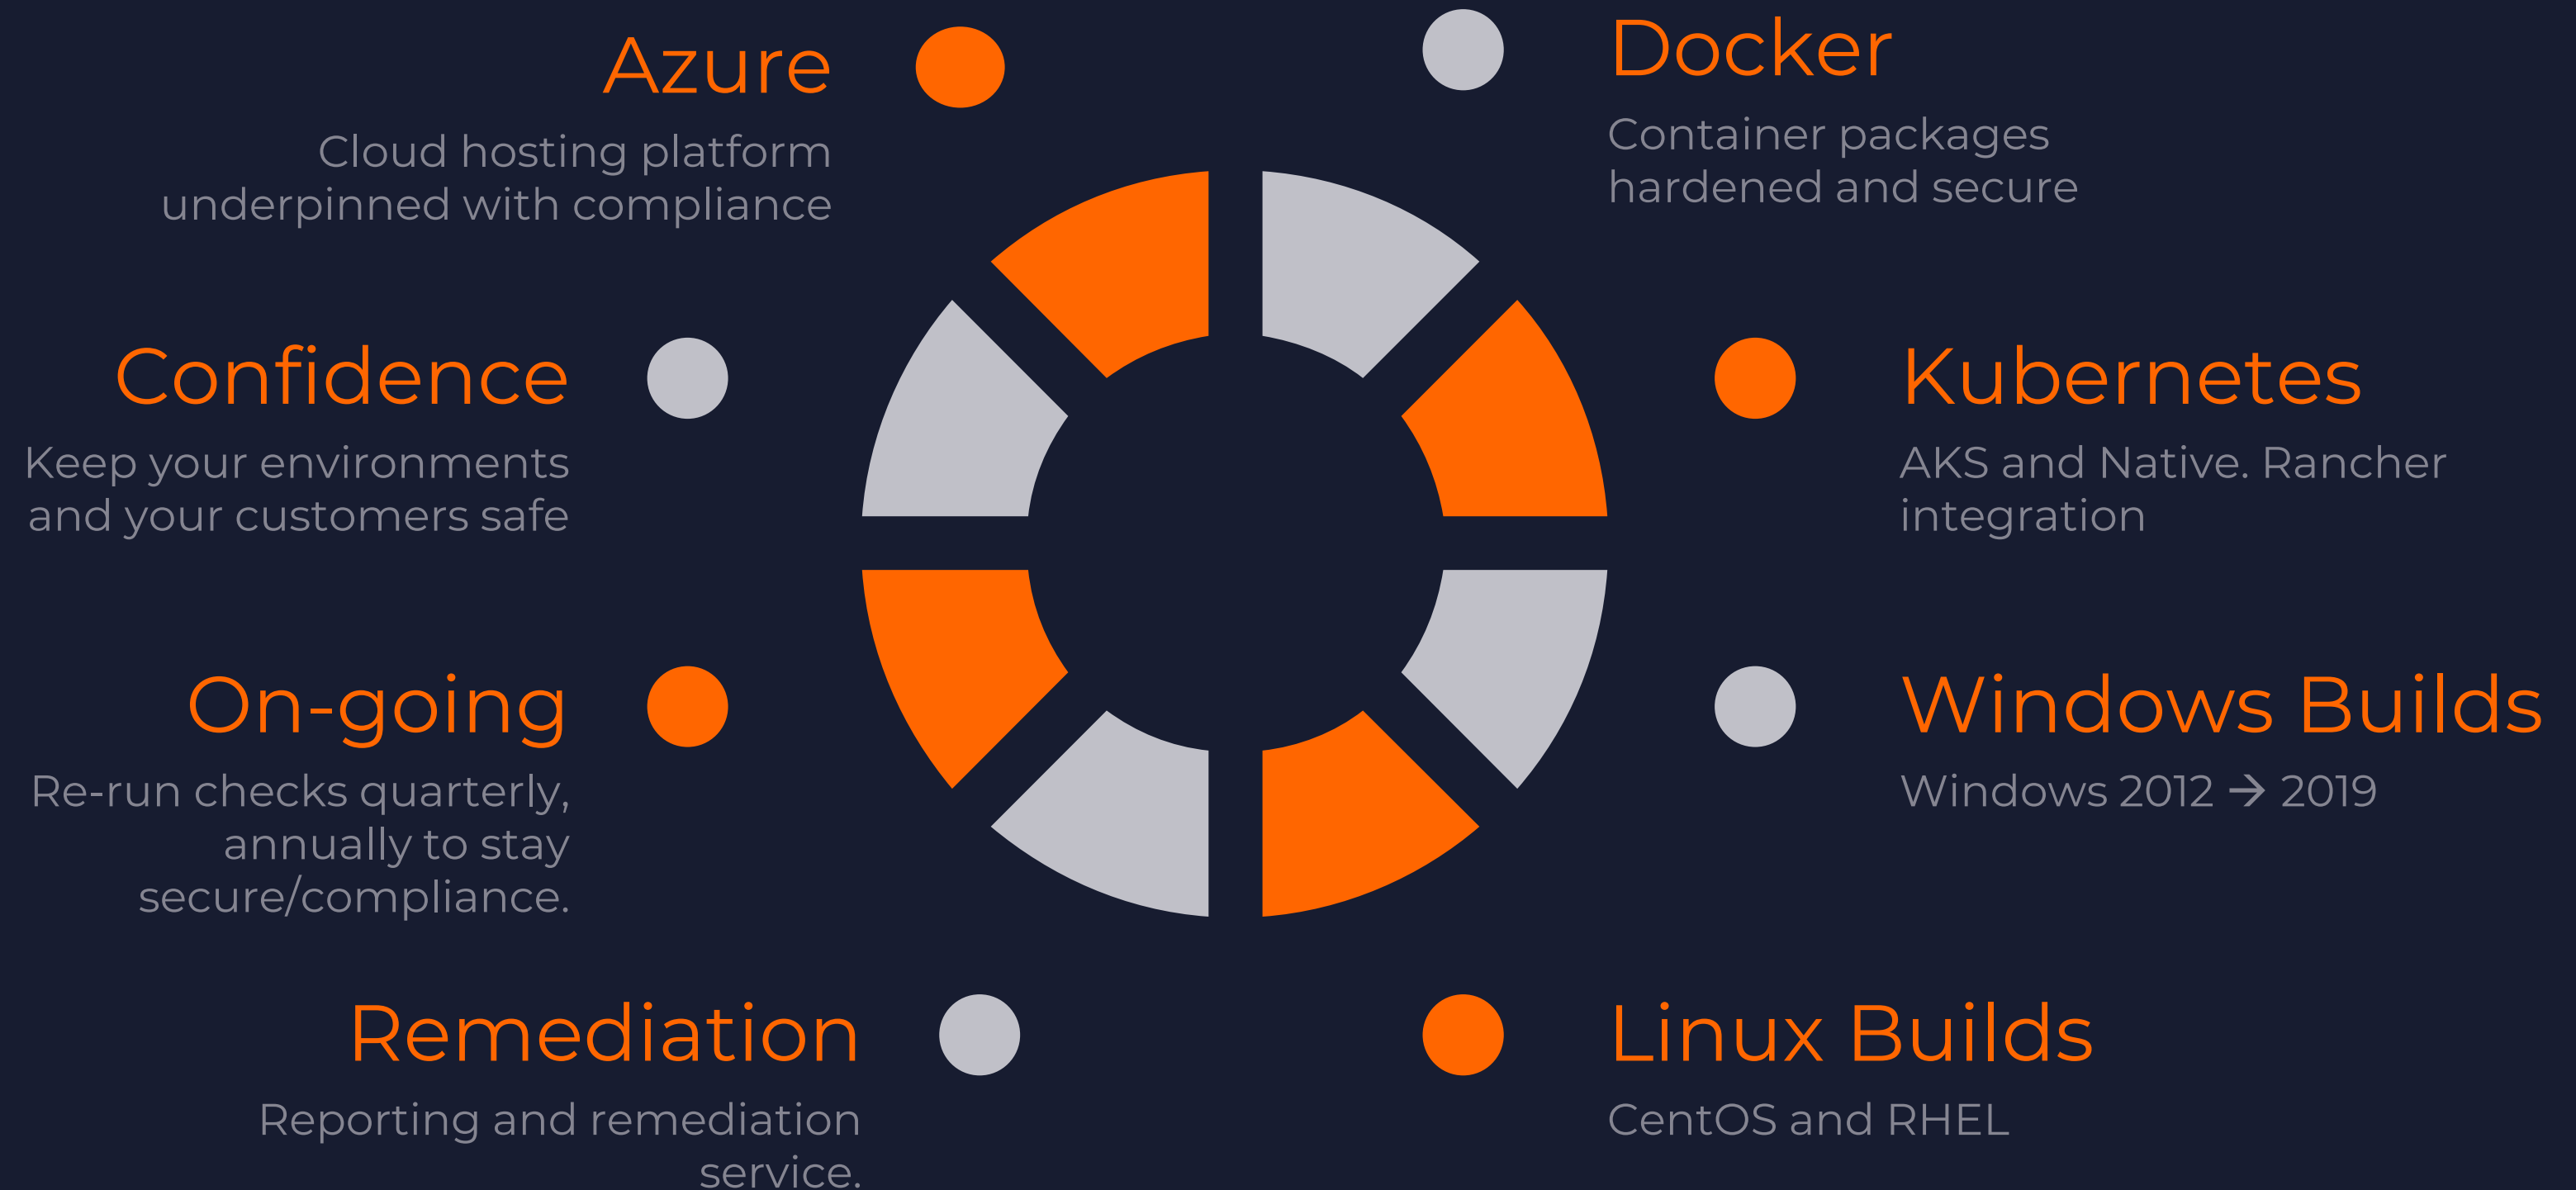

What we do

Technology focus

- ★ Azure specialists
- ★ DevOps & automation specialists
- ★ Cloud & container experts
- ★ Professional services & cloud operations

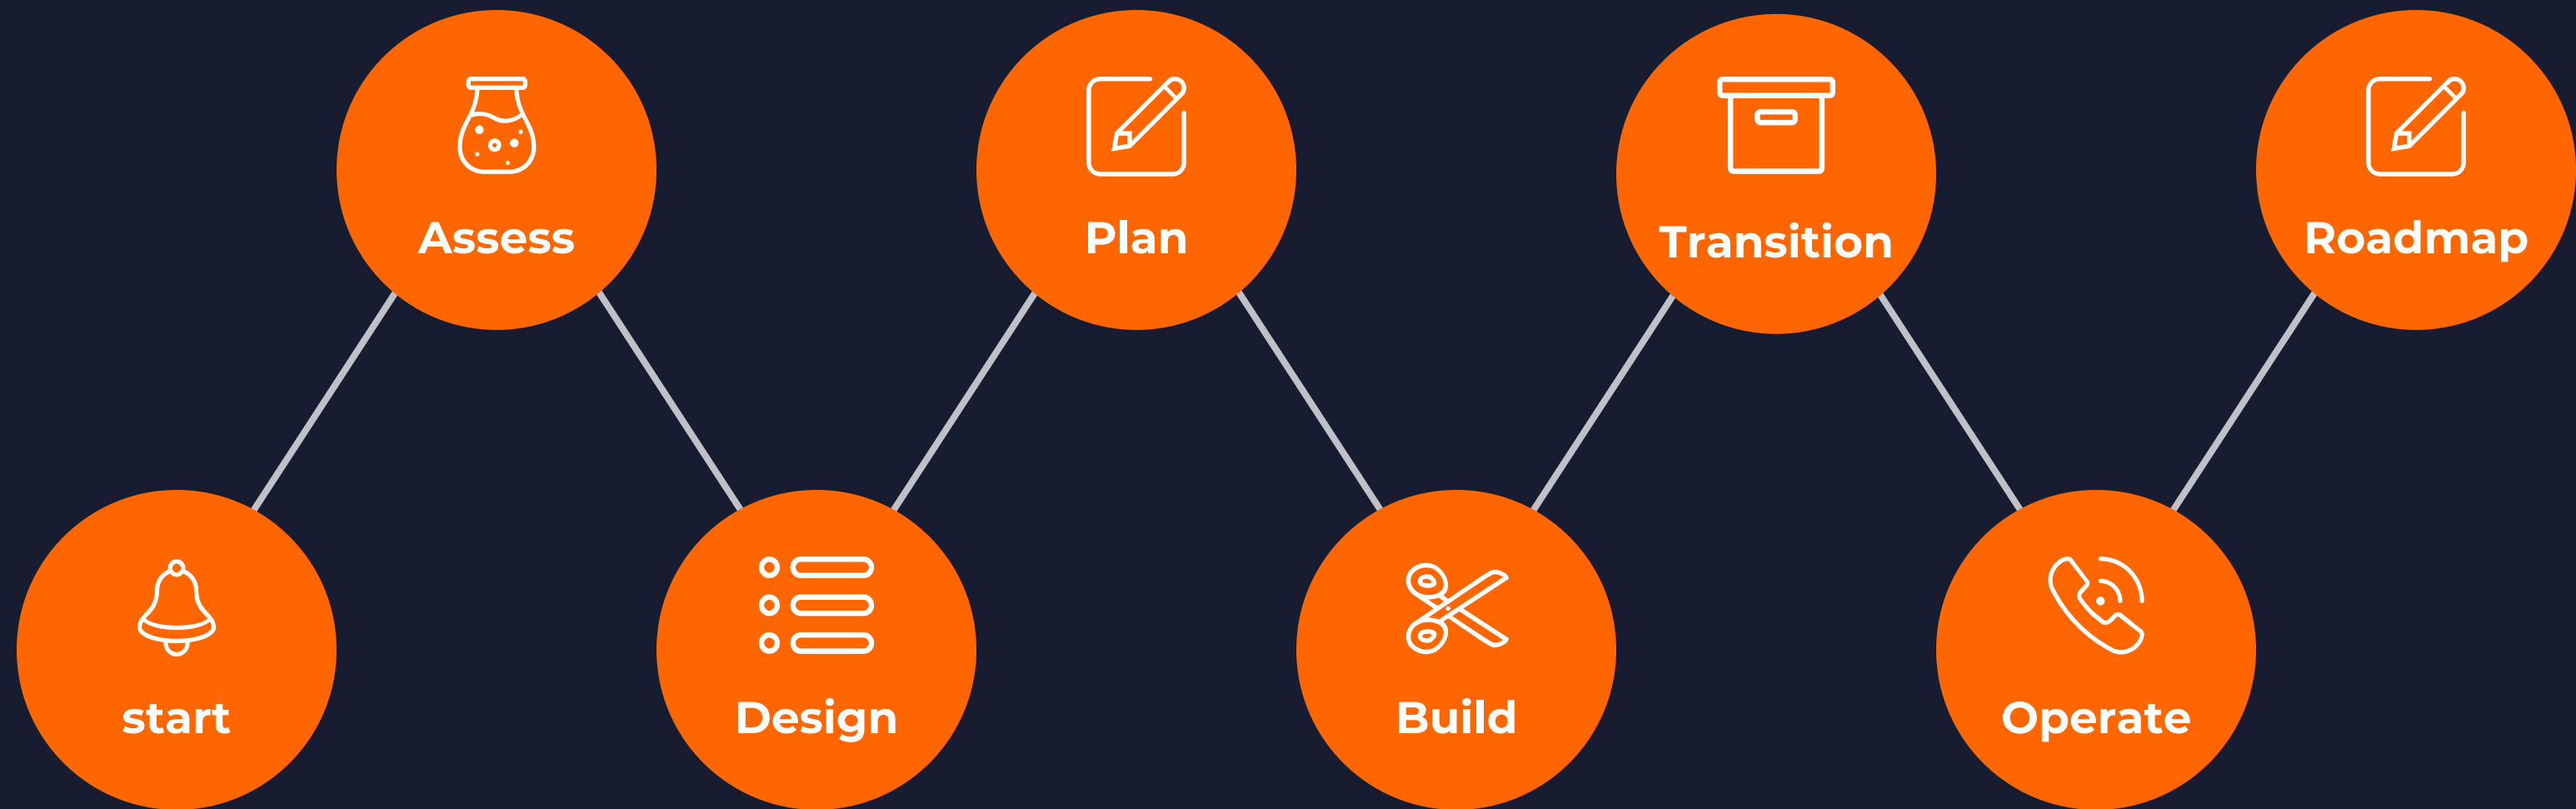

Enterprise Grade CIS Benchmark & CAF Compliance

Azure Enterprise Container platforms

Major steps

thank you
