OUR STRATEGY

Design to align with DevOps

- Simplified but powerful design to approach complex transformation. Deliver features incrementally

Organizational Change Management

- Understand the requirements, cultural dynamics, security demands to design & automated migration

Service Delivery & Operations

- Governance, Service Levels & Operational Excellence to meet the demands of new age delivery tuned for Cloud.

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

See what Customers are saying

"Prudential Thailand, has recently proven that by combining the power of their partnership with Tech Mahindra, the acceleration of their cloud capabilities and the strategic know-how and support of their Prudential regional counterparts, they have not only closed the gap created by InsureTech but very well on their way of becoming a disruptor themselves".

“

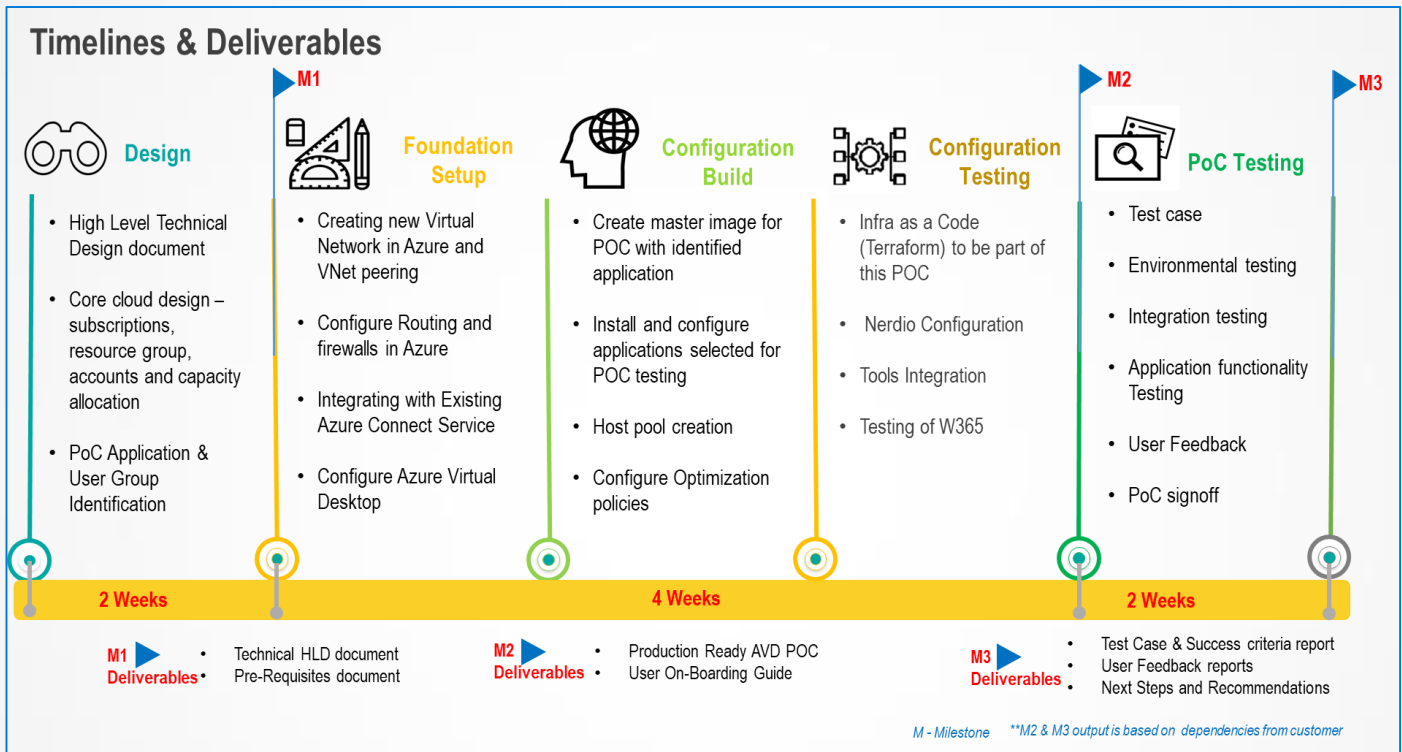

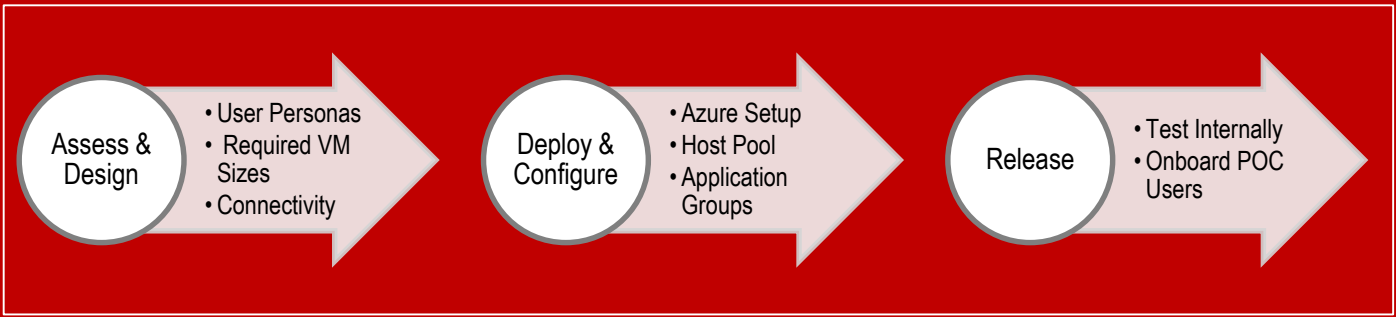

Jennifer Villalobos - Chief Digital and Technology Officer Prudential Life Assurance (Thailand) PCL

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
