# Benefits You Can Anticipate with Anywhere for Retail

Get 360 degrees item information in a single scan

Fully integrated with D365 Finance & Operations for retail

Enable users to make real-time data entries into D365 Finance and Operations through their mobile devices to save money and time

Out of the box apps for retail that can be easily modified to fit your requirements

# Processes

## Item information

Get comprehensive item information at your fingertips. Scan the barcode of an item once for real-time information like sales, stock levels pricing or upcoming promotions of the item.

## Item receipts

Receive items from Distribution Centers, Suppliers and other stores in just a few scans.

## Label printing

Print updated price and shelf labels in just a few steps.

## Store transfers

Transfer items between stores or return items to the Distribution Center(s).

## Stock counting

Count inventory in the store with multiple users at the same time and track where, when and who did the stock counting.

# Features

---

**Embed D365 Finance and Operations in your stores**

Have real-time insights and information from D365 Finance and Operations

---

**Independent of operating system**

The apps can run in Android, iOS, Windows CE, or Windows Mobile environments with consistently fast performance and solid reliability across operating systems.

---

**Responsive display for any device**

The solution can run on any device that has a browser. It is a responsive app that fits automatically to the screen size of the device it is executed. You can also configure device-specific dimensions to have a better view.

---

**Language adaptability**

The solution is available out-of-the-box in English. You can translate them to other languages using Google Translate or MS Translate, which may have an additional cost aspect.

---

**Menus and authorizations**

Create user specific menus and control accessibility via role based security.

---

# To-Increase

We are driven by our vision of empowering you, our customer, with software solutions that help you optimize your operations, grow, and lead in your sector. Our team of passionate technology experts works at anticipating potential problems our customers may face and provide easy-to-implement and use solutions that help them stay ahead of the competition.
