

Microsoft Azure is  
ready when you are.  
YOUR BUSINESS. YOUR CLOUD. YOUR TERMS.

## Moving to the cloud makes it easier to run your business.

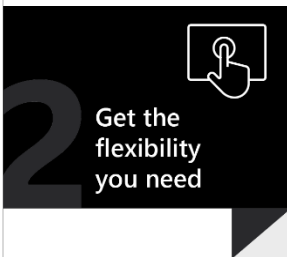

We think getting to the cloud should be easy too. And with Azure, you can start taking advantage of all it has to offer with far more ease and simplicity than you might think.

Till **30<sup>th</sup> June 2021**

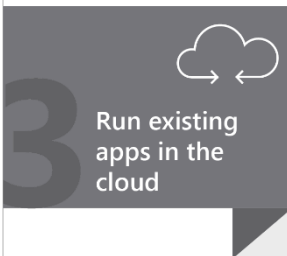

**FREE 4-Hour Consulting Services**  
**Upto 50% Discount on Professional Services**

With Azure, you can move any or all your business applications on your timeline and when you're ready. You don't even have to move them all at the same time. Plus, you can get the best of both worlds with built-in access to hybrid services.

Azure takes the hassle out of technology, so you can focus on running your business. Not only will you spend less time managing servers, you can choose the Azure that's right for you—like pay-as-you-go or fixed rates, services like disaster recovery, and more.

Need to move apps still running Windows Server or SQL Server 2008/R2? No problem. Run them in Azure and you'll get 3 more years of extended security patches for free. Then, upgrade when you're ready.
