VoIP, Asterisk, Cisco

IT OPERATIONS – IT INFRASTRUCTURE SERVICES

WHY CHOOSE SII

- 250+ consultants
- 150+ IT infrastructure projects
- We support over 2 000 locations
- Quality & Security: ISO 9001:2015, ISO 15408
- Redundancy: 2 Data Centers

SELECTED REFERENCES

Modern Desktop migration project

User migration to the modern desktop environment with Microsoft O365, consisting of Windows 10, Office 365 ProPlus, Enterprise Mobility and Security and OneDrive as a complete solution.

Active Directory migration project

AD migration project done across the whole Fresenius group. Project consists of design, analysis and consultation in a very large Microsoft environment, including Active Directory, Windows Servers and MS SQL Servers.

MS Azure migration project

Migration of databases and applications from existing on-premise and MS Azure platforms to one MS Azure tenant. Monitoring and administration of the environment.
