

Azure IoT Workshop

This 3 day engagement will include presentations, stakeholder interviews, analysis, demos, and hands on learning to help you create a technical strategy for your IoT Solution

Agenda

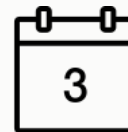

Day 1

- Provide an overview of Azure IoT Services and Azure IoT Hub
- Live demo working with IoT devices
- Define device requirements

Day 2

- Choose connectivity architecture
- Establish security practices
- Define data requirements
- Define analytics, data, and dashboard needs

Day 3

- Define web/mobile architecture
- Align appropriate Azure IoT services
- Q&A

Deliverables

- Education on Azure IoT hub and informative slide deck.
- Learning the Technical strategy for developing IoT solutions (step by step)
