

Xamarin Mobile App Implementation

MNP uses Xamarin and Azure to build cross-platform native applications resulting in lower costs and a faster time to market.

10-Week Implementation

Deliver a consistent mobile experience on a secure cloud platform with MNP, a Microsoft Gold Partner in Cloud Platform and Application Development. We create intelligent applications that are driven by data, are built on Azure for maximum performance and scalability, and use a shared C# codebase for a truly native experience.

At MNP, we marry our Xamarin expertise with strategy, design, data, and DevOps, while taking a human-centered approach that can easily be adapted to meet the size and needs of your project. It's time to harness the power of Xamarin and Azure for your mobile applications.

Key Benefits

At the end of this engagement, you will have the following:

- ✓ Mapped user experience design and flow
- ✓ Completed application design
- ✓ Fully functional Xamarin native application
- ✓ Roadmap for future application functionality

Better Mobile Apps by Design

We are design enthusiasts and expert developers who are passionate about delivering the best experience for your users. The following approach can be tailored to your organization's needs.

Xamarin Mobile App Implementation

Objectives	<ul style="list-style-type: none">• Review your strategic priorities• Accelerate your mobile development• Develop a user-focused user experience• Create a best-in-class Xamarin mobile application
Activities	<ul style="list-style-type: none">• Assess current application (if required)• Understand stakeholder needs• Ideate solutions leveraging Azure and Xamarin• Develop user experience and map user flow• Develop Xamarin application using a shared codebase
Deliverables	<ul style="list-style-type: none">• User experience mapping• Completed application design• Fully functional Xamarin application• Roadmap for future functionality
Timing	<ul style="list-style-type: none">• 10 weeks
Team	<ul style="list-style-type: none">• Senior BA/Design Consultant, Senior Developer, and Project Manager

MNP Technology Solutions applies a collaborative, modern, and measured approach to help organizations thrive in a digital economy. With locations across Canada, our experienced professionals bring the industry and technical know-how needed to accelerate cloud transformation through the adoption of Power Platform, Dynamics 365, and a full array of Azure services and solutions.
