Client Presentation

PowerApps Offerings

Solution Overview

PowerApps increases agility across the organization by
- Rapidly building low-code apps that modernize processes and solve tough challenges.
- Empowering the team to start building and launching apps right away using pre-built templates, drag-and-drop simplicity, and quick deployment - then roll out continuous improvements as needed.
- Giving everyone the power to build the apps they need with advanced functionality previously only available to professional developers - including pre-built AI components.
- Providing professional developers, the tools to seamlessly extend app capabilities with Azure Functions and custom connectors to proprietary or on-premises systems.
