# Running an Organization today is like playing a **game of Jenga**

You are constantly adding,  
removing or aligning your  
organizational elements.

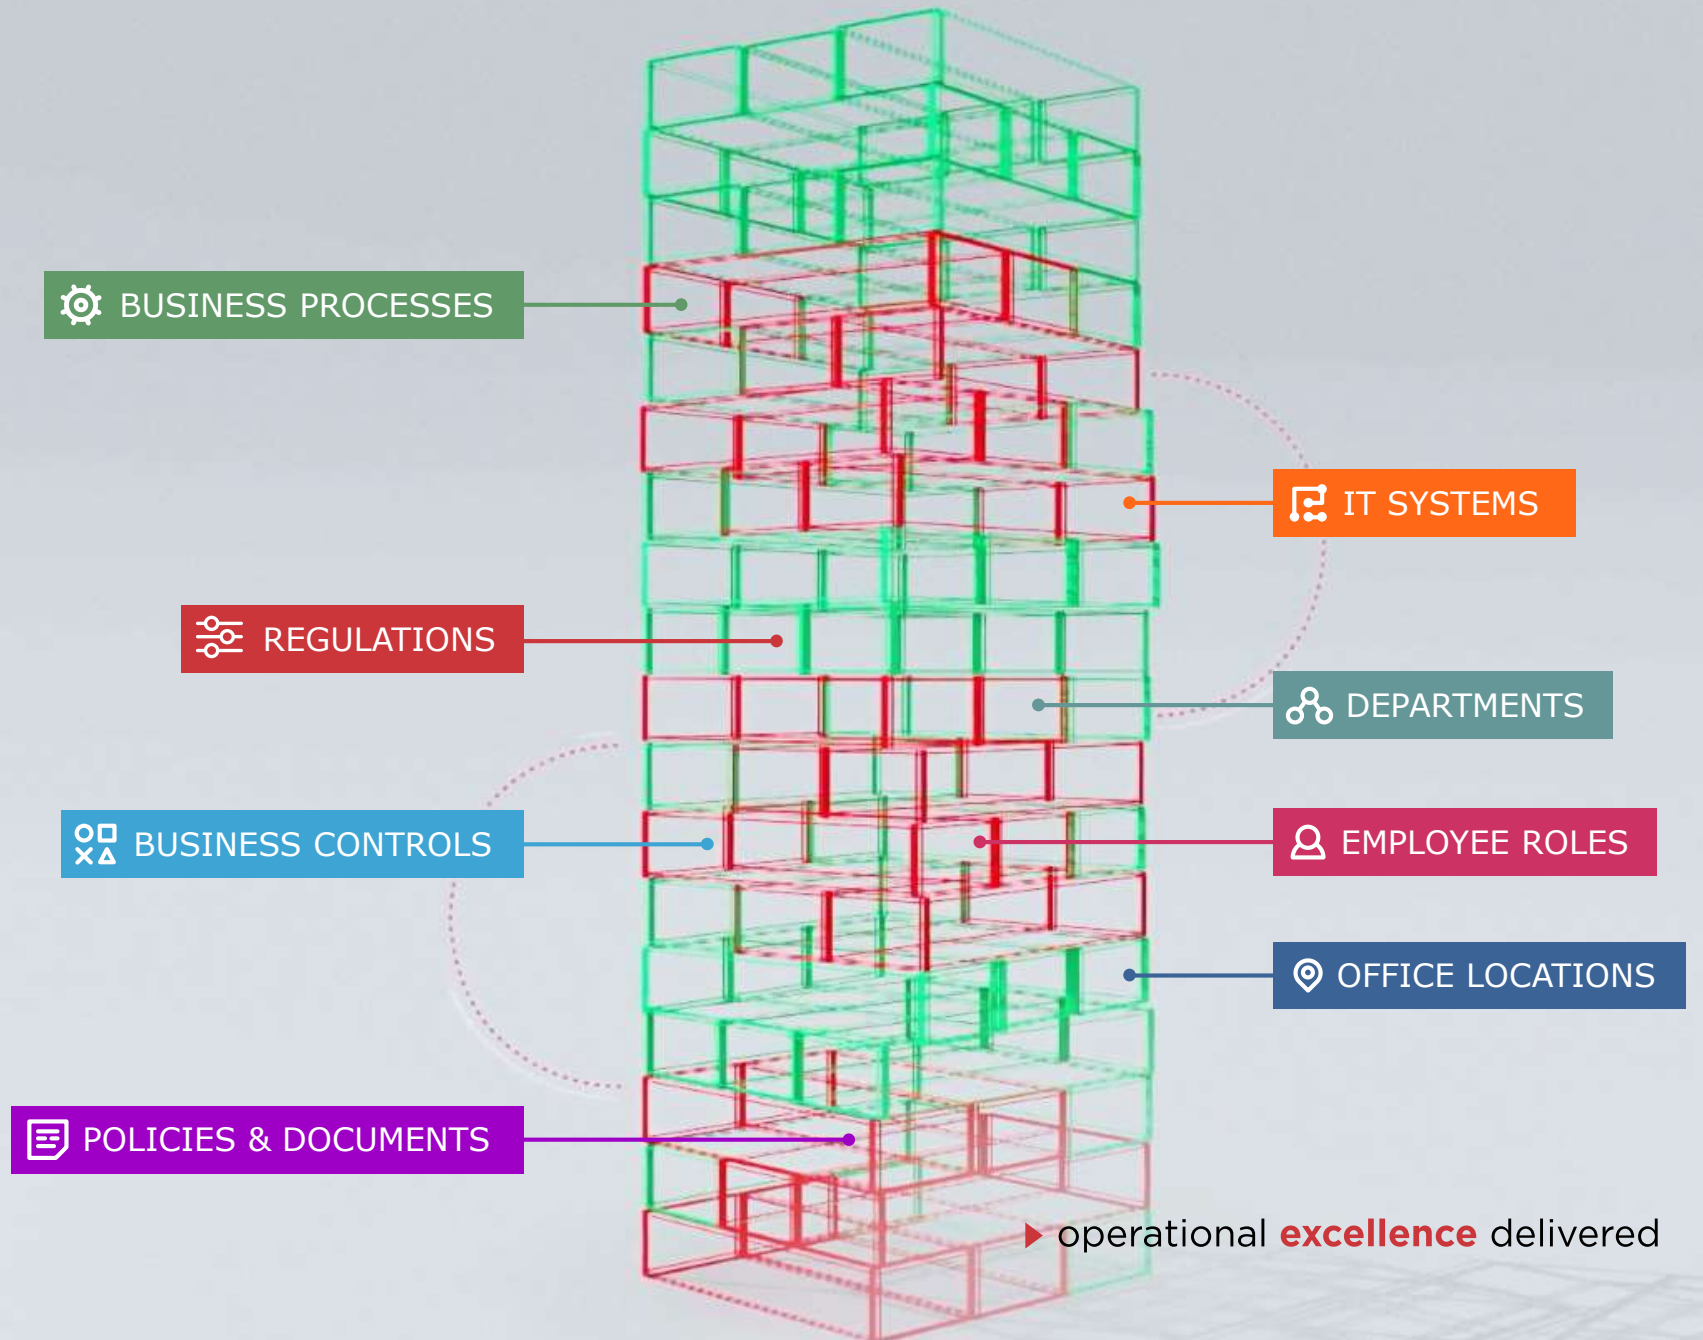

Just like in Jenga,  
**one wrong move**  
can have a cascading effect  
on your Organization

To play this game better  
you need to know how the  
building blocks are  
connected to each other.

# This is what **GIEOM** does for you

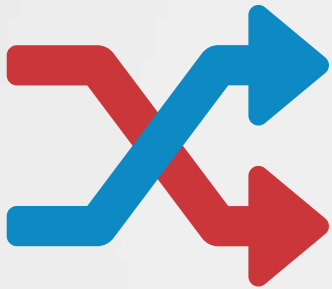

It connects all  
the building blocks  
of your organization.
