Architects of Change

# A tried and tested framework to help you achieve your vision.

Setup and manage your Azure cloud at speed in a controlled and compliant way while minimizing cost. Through our three-step approach, complemented by our expertise and best-in-class technology, we help you to both strategically plan and execute on your cloud strategy.

## Step 1: Align

### Readiness assessment

Cloud strategy roadmap and workload transformation plan with highly accurate cost expectations.

### Security assessment

Detailed considerations around security, network, governance and application architecture.

## Step 2: Transform

### Platform implementation

Deployment of a standardized best-practice platform using a proven approach that reduces time to value.

### Workload migration

Low-risk migration with a new Azure application or existing lift-and-shift focus, to safely migrate workloads to cloud.

## Step 3: Scale

### Managed services

Services to manage cloud performance, optimize cost and ensure governance and security.

### Ongoing innovation

Continually modernize and innovate throughout the business lifecycle for long term growth.
