

Intelligent Automation for Microsoft Office 365 Migration

Migrating larger enterprises to Office 365 demands careful planning and co-ordination. There's a hybrid environment to establish, a series of onboarding steps to execute and linked workloads such as files and third-party archives that need to be orchestrated.

Introducing TransVault OnBoard - designed to deliver your migration to perfection.

You establish the strategy and workflow for your business and TransVault OnBoard eliminates the heavy lifting by intelligently automating each step and keeping you and other stakeholders informed of progress. Post-migration, detailed audits and reports give peace of mind everything's been successfully delivered into Office 365.

TransVault OnBoard delivers even the most challenging migrations with support for:

- primary user & leavers' mailboxes
- home drives to OneDrive
- file servers to SharePoint
- Skype for Business accounts
- any third-party email archive

Contact TransVault or your nearest TransVault Partner today to arrange a demo.
