

Onboarding for Commercial Entities

KNOW YOUR CUSTOMER *made simple.*

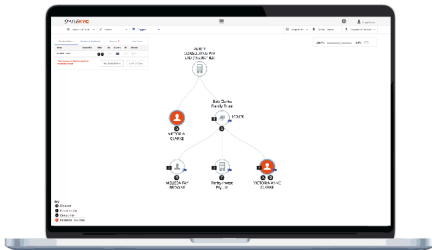

An end-to-end workflow solution for KYC. Automate know your customer for all client types including individuals, companies and trusts. Machine read government documents & verify beneficial owners.

What is Simple KYC?

Simple KYC is a workflow solution for onboarding all types of entities, including complex ownership structures such as foreign companies and trusts. Run electronic verification on beneficial owners along with PEP and sanction screening.

Why do customers use Simple KYC?

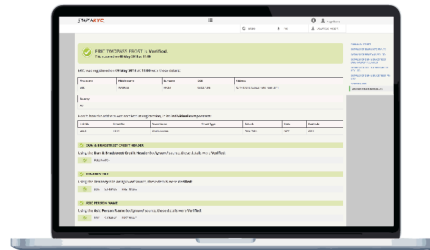

- Handle all entity types within a single workflow
- Machine read documents and extract key information
- Meet all your regulatory requirements

Visualise an entity

- Create a visualisation of the ownership structure
- Review Simple KYC generated flags for risks
- All beneficial owners are highlighted

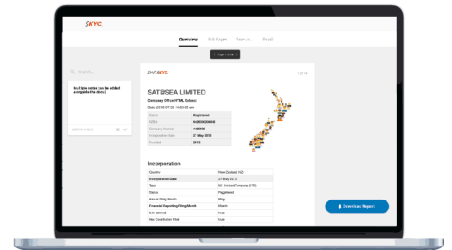

Complex companies visualized at the click of a button.

Verify beneficial owners

- API integration to government registries and data sources
- Run PEP/sanction screens
- Also identify other associated parties

ID reports generated for beneficial owners.

Provide audit trail

- Generate in-depth report of your primary client
- Reports will dynamically change as information updates
- Collaborate and highlight issues to your team

Live and updating audit reports for companies.

"Designed to manage supply chain risks, startup Simple KYC aims to simplify and consolidate the client onboarding process and the heavy compliance requirements placed on businesses in this area by regulators."

- Scott Morrison, Prime Minister of the Commonwealth of Australia
