Power BI performance optimization training (1 day)　　Price: $4,000

Learn about the Performance Optimization techniques for Power BI to achieve maximum value in our 1-day training

This training will provide you with the best practices for optimizing Power BI performance.

Why our customers prefer Power BI performance optimization training:

- Diagnosis of existing the Power BI environment's and desktop's performance with bottlenecks, inefficiencies
- Know how to perform the necessary steps to achieve optimal performance with low cost of reporting, low product availability cost, short decision-making process

Agenda:

- Setting Performance Goals
- Workspace and tenant- load planning, refresh planning and live/direct query planning
- Data Preparation - Best practices on optimization
- Data Modeling & DAX - Best practices on optimization
- Reports - Best practices on optimization
- Monitoring – in desktop and service
- Troubleshooting Performance Issues - in desktop and service
