# ENABLING VALUE EXTRACTION OF DATA WITH CLOUD DATA FOUNDATION ON AZURE

MODERN DATA ESTATE - CLOUD DATA FOUNDATION ON AZURE

ENTERPRISES OF ALL SIZES SUFFER FROM

- Difficulties accessing data
- Quality and timeliness of the data available
- Diverse and disjointed approaches producing repetitive efforts and increased costs to produce simple things, insights
- Overall, costs getting out of control with reduced benefits

DATA ESTATE MODERNISATION helps solve these challenges

- Consolidate your data estate technology to simplify generation of insights cost effectively
- Simplify onboarding and consumption of data without compromising security and risk
- Enable true self-service access to data to empower all your stakeholders to generate the insight they need to make the right decisions

DATA VALUE TRACK

- AI /ML Proof of Value
- AI / ML Project

DATA ENABLEMENT TRACK
- Data Enablement Workshop
- Data Foundation MVP

Managed Cloud Application

DATABASE MODERNISATION TRACK
- Application modernisation assessment
- Database modernisation
- Application modernisation

Application portfolio assessment (6Rs)

Incremental Evolution

- **ENABLE SELF-SERVICE DATA CONSUMPTION** to drive value extraction from data throughout the organisation
- **COMPLIANT**, **SECURE** and standardized yet **AGILE** foundation for data operations
- Heavily automated delivery with Nordcloud IP to drive **COST EFFECTIVE SETUP**
- **BUILT ON AZURE DATA SERVICES** to leverage the latest data related innovations from Microsoft and ensure extendibility
- Managed services that ENSURE **DATA VALUE EXTRACTION** and access to updates for the foundation services
- Metadata to drive **AUTOMATIC GOVERNANCE** and compute / storage cost allocation to publishers and consumers

GET STARTED ON YOUR DATA JOURNEY WITH THE **NORDCLOUD** DATA ENABLEMENT WORKSHOP

DATA ENABLEMENT – 3 DAYS WORKSHOP

Audience: IT, Data analytics, Data privacy leadership

Objectives:
- **Educate stakeholders** on Azure data services and Nordcloud data foundation
- Define a modern **data operating model**
- Define stakeholders **responsibilities**
- Define **business objectives** for the platform
- Define **priorities and scope** for modern data platform MVP

Day 1: Data governance

- Introduction on cloud data foundation vision
- Goals (business & tech)
- Roles & Responsibilities
- Identify top data initiatives & priorities
- Data sources & stakeholders
- Model for onboarding data sources and enabling consumption of data
- Compliance requirements
- Cost allocation (compute / storage)

Day 2: Data OPS & Security

- Intro on security model
- User management & access control
- Compliance
- Data staging / lifecycle and data lake structure
- Metadata model to drive data lineage
- Data quality - deduplication & harmonisation
- Support model, monitoring - metrics & alerts

Day 3: Wrap Up

- Recommended model based on days 1 & 2
- Prioritise data sources for cloud foundation MVP
- Prioritise set of features and capabilities for MVP
- Identify business use case to validate MVP value
- Roadmap for data estate modernisation journey
- Agree follow-up steps

Nordcloud

100% CLOUD NATIVE AZURE EXPERT MSP, FOCUSED ON ACCELERATING AZURE CLOUD ADOPTION

Value proposition

Microsoft Gold Cloud Partner and Azure Expert MSP Nordcloud : WITH AZURE, WE ENABLE OUR CUSTOMERS TO INCREASE THEIR SPEED OF INNOVATION AND BUSINESS AGILITY WHILE REDUCING TOTAL COST OF OWNERSHIP.

Cloud journey by Nordcloud: from infra capability to agile company capability

BUSINESS DRIVERS

CLOUD STRATEGY	CLOUD FOUNDATION, GOVERNANCE	APPLICATION DEVELOPMENT, DATA, DEVOPS
	DC MIGRATION	MANAGED SERVICES OPTIMISATION

BUSINESS OUTCOMES

Background

Since 2011, Nordcloud has completed **more than 500 successful deployments that have helped its enterprise customers reap the full benefits of the public cloud, including better security, agility, scalability and reduced costs**.

Nordcloud employs 420+ cloud experts around Europe. Nordcloud has local presence in Austria, Denmark, Finland, Germany, Netherlands, Norway, Poland, Sweden, Switzerland and UK. Nordcloud is one of only 2 European players in Gartner's Magic Quadrant for Public Cloud Infrastructure Managed Services Providers 2017-2019. We are also an AWS Premier Consulting Partner and a Google Cloud Premier Partner.
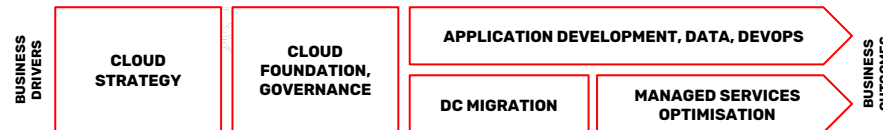

Services in a nutshell

- W/SQL2008 server migration
- OSS in Azure: Linux, Openshift, Kubernetes
- Rapid DC Migration to Azure
- Managed Services on Azure
- Cloud Native Applications on Azure
- Data Estate Modernisation on Azure
- AI, ML, IOT on Azure
- DevOps Transformation
- Oracle on Azure
- SAP on Azure

- Microsoft Gold Cloud Partner
- Microsoft Azure Expert Manager Services Provider
- Preferred AI Training Partner by Microsoft
- Finalist in Open Source and Applications & Infrastructure on Azure Partner of the Year 2018

Internationally Recognized

Gartner | Public Cloud Infra. Managed Service Provider
