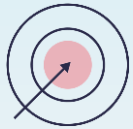
Azure Cloud Foundation - key values

Packaged solution based on both Microsoft (CAF) and Nordcloud best practices

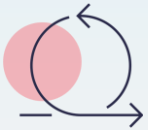
Fixed cost and time - Delivered within weeks from project start

Experience from hundreds of projects has formed Cloud Foundation to what it is today



Wide adaptation possibilities to suit different requirements and scenarios

Cloud native. No external dependencies, components or licenses - all standard Azure



Future-proof solution with upgrades, services and advanced capabilities

Everything implemented as code (IaC), in version control, deployed with pipelines

Azure Cloud Foundation is an enabler for your cloud journey

Nordcloud
