

Cloud Solution Provider Assessment

Assessment of ongoing support operations as your Cloud Solution Provider

HOW IT WORKS:

BDO Digital is an industry leading cloud strategy, implementation and management partner. We help our customers maximize their cloud investments by delivering guidance and support across the many aspects and technologies available within the public cloud.

Our team will conduct an assessment and onboarding engagement which will help identify key roles, responsibilities, and a communication plan. Our team will help define CSP support requirements, process, ownership, and billing. Additionally, BDO Digital will setup your Azure tenant with BDO cloud insights and train your team how to leverage the management system and self-service portal.
