

# Microsoft Surface Hub 2S Swift Pass Offer

*Enable team collaboration in the modern workplace*

The way teams work is constantly evolving and the technology solutions they use must provide effortless flexibility and robust collaboration. With Surface Hub, hardware, services, and support go together to provide better awareness and drive adoption across your organization.

## *The Unified Communications difference*

Unified Communications is made up of extraordinary people who work tirelessly to provide customer-focused premium services by listening to customer's needs, offering best-of-breed products, engineering easy-to-use solutions, maintaining the highest standards, integrating and training with the care we would expect for ourselves, and making it simple and convenient for customers to plan, buy, and manage their technology investments.

## *Our knowledge and expertise are available to you*

Free self-guided virtual assessments are available at our website to introduce core requirements. We love helping customers understand how Surface Hub fits into their environment and enables fluid collaboration.

*"Our collaboration journey is about giving people the right tools."*

## Why customers use UC's Collaboration Services

*This is a new way of working.  
We're here to help you...*

- As a partner on the journey
- Define the vision and value
- Drive interest and awareness
- Remove obstacles to adoption
- Integrate custom workflows
- Measure success and health
- Learn from our experience

## Surface Hub Swift Pass

We know how important it is that technology works as intended and that first impressions are everything. Swift Pass provides customers who purchase Surface Hub 2S with their choice of a free service to accelerate the process of technology integration and adoption. Choose 1 of the following **free project managed services** with purchase:

### 1. ASSESS

For organizations that are new to Microsoft Modern Workplace solutions, we help guide decision making by identifying best practices for deployment into your environment.

### 2. INSTALL

We will walk through the step-by-step process of installation on a mobile cart, floor mount or wall mount while ensuring optimal use and functionality.

### 3. TRAIN

When technology works beautifully and users are confident, meetings are more productive. We will introduce users to new ways of collaborating with their teams.

At Unified Communications, we believe in the collaboration culture that Surface Hub unlocks and want to empower all users no matter where they are in their journey to take advantage of all the tools that Surface Hub brings to the table. Along that path, we prepare organizations to combine technologies such as Microsoft Teams Rooms with Coordinated Join, Device Management with Microsoft Intune and personal ink/touch devices in the Surface family.

## Tangible Benefits & Desired Outcomes

Utilizing Surface Hub services and implementing sophisticated best practices on your collaboration technology journey enables the cultural transformation project to be successful and the organization to be empowered. As with most projects, success starts with alignment of the overall vision of all stakeholders. Our plan to execute that vision and produce positive business outcomes has been refined based on our extensive experience with the Microsoft Modern Work and collaboration technology portfolio.

## Why UnifiedCommunications.com?

Our approach is to treat clients like we're members of the same team. Our organization is shaped by certified, talented and passionate people whose mission is to help organizations thrive by bringing people, knowledge, and ideas together through technology. Since 1982 our organization has been delivering world-class expertise focused on exceptional customer service, extensive product knowledge and powerful distribution capabilities to design and deploy tailored solutions to over 12,000 customers around the world.

We invite you to view our website for more information about the services we offer, our methodology to help you identify the right sized business solutions, and the quality of our implementations.
