*Simplifying Cloud Complexity for Competitive Advantage*

## INTRODUCTION

*Enabling business innovation through digital transformation, and reducing risk, cost and time is the UNIFYAdvantage. UNIFYAdvantage allows you to focus on what you do best with the reassurance your Cloud platforms are managed by the experts.*

**Shane Day**

*Chief Technology Officer, UNIFY Solutions*

UNIFYAdvantage is a one-stop solution for Azure customers to manage and secure their digital channels for identities, citizens and customers.

UNIFYAdvantage enables access to their resources in the cloud with minimal TCO and no upfront investment.

# UNIFYAdvantage

*Simplifying Cloud Complexity for Competitive Advantage*

## WHY YOU NEED IT

To be competitive you must adopt the Cloud to service your digital channels

As you know, organisations that do not transition their Digital Channels to the Cloud will not be able to compete with those that do.

With UNIFYAdvantage, you can transform your operations with lower upfront costs and risks using proven methodologies that exceed expectations expediently and reliably.

## WHY YOU NEED IT

### Why would you compete for Identity, Cloud & Azure skill sets?

To stay competitive, you need to focus your people on business innovation. Operating and managing Cloud platforms should not be part of your core business. Remove this overhead using UNIFY skills, processes, and experience.

Keep your digital channels running.

Focus on your competitive advantage.

*Simplifying Cloud Complexity for Competitive Advantage*

## WHY YOU NEED IT

### You need to know who you are transacting with

Knowing who has access to what, from where and when is a key foundation for your security. Knowing what data is permitted to be transacted is equally important.

UNIFYAdvantage protects your Digital Channels.

## CUSTOMER SUCCESS

### The Customer Need

The Ministry of Education needed to replace its core identity and access management system, supporting critical business process across several thousand institutions, whilst preserving legacy interfaces and minimising user impact from the change.

**MINISTRY OF EDUCATION**  
TE TĀHUHU O TE MĀTAURANGA

### The Impact

*UNIFY Solutions & the Ministry of Education worked with Microsoft using Azure B2C to facilitate applications being migrated to the replacement solution without application change. UNIFY was integral to the Ministry's 'Digital Identity' Agile team, and used a Rapid Delivery model to enable a faster path to realising business value.*
