

BASEFARM 1-DAY CLOUD STRATEGY CAF WORKSHOP

ABOUT BASEFARM:

Basefarm is a European managed service provider that creates market leaders by integrating the key competencies for digital transformation – big data, cloud services and information security, into one offering from innovation to production.

WHAT WE OFFER

A deep-rooted cloud strategy is key to the success of any cloud journey within all customers independent of what industry you are in. This workshop is developed to make sure you are on the right way.

The goal of this workshop is to document your initial cloud strategy in a way that unites key business stakeholder, IT departments and developers. We will utilize and align with Microsoft Cloud Adoption Framework (CAF) alongside with Basefarm best practices from several customer projects.

Main topics and objectives for the workshop:

- Brief introduction to the Microsoft Cloud Adoption Framework and gain an understanding on how to succeed with the public cloud
- Cloud Economics and financial- and technical considerations
- Describe and clarify your motivations for moving to the cloud
- Identify the business outcomes and business justifications for your cloud journey
- Identify your project based on business outcomes
- Identify prioritized workloads for deployment

The required participants for this workshop are Business- and IT Decisions Makers, Application Owners, Senior IT Professionals and Architects.
