

Windows and SQL Server Migration to Azure – 1 Hour Briefing

A solution to address the various business requirements to migrate and host diversified workloads on Azure. Our solution tightly equipped with all required tools for Assessment, Planning & Design, Implementation & Migration, also our solution is integrated with industry proven mechanism – “TCS Cloud Exponence” for handling the day-to-day operations.

Our Tools:

Cloud Counsel:

- Cloud migration readiness assessment
- Migration approach and roadmap

Cloud Mason:

- Defines, Designs and Deploys ready Enterprise Cloud Platforms using TCS Mason Framework

Cloud Exponence:

- Automated Provisioning & Orchestration
- Digitized Application Architecture Library
- Service Catalogue Managed Services

Key Industry Scenarios to go with Windows & SQL Server on Azure

- Reducing the footprint of siloed hardware, Rapidly Scale Apps & Infra, Operational Efficiency & Savings, Application Innovation, Time-to-Market / Value, Improved Business Agility (Scale-in or Scale-Out), Availability & Business Continuity, Adopting the Automation, & for Application Modernization.

Windows & SQL Server Offerings

We analyze the current estate, define the migration strategy & design by retaining the harmony of the running estate with all the integrations and by leveraging the Cloud Exponence for the day-to-day operations. Our Offerings are:

- Consulting Services
- Professional Services
- Operational Services

Benefits:

- Set up fully managed and scalable SQL database integrated with Azure services for a streamlined experience.
- Improve operational efficiency with standardized provisioning of cloud services and application with consistent cloud governing policies.
- Save costs by leveraging existing resources, skills and tools to support the migration with minimal cloud-based training and transition.

TCS Advantages:

- Strategic Partnership with Microsoft Azure: TCS is an Azure Expert MSP, Advanced Specialization certified on Windows & SQL Server Migration to Azure, MPN -Gold Certified Partner and an active member of the MPN Cloud Solution Provider (CSP) program,
- Faster Time to Value
- Factory based approach
