

VIVA INSIGHTS

Empowering employees and their teams drives an organization's success

Data-driven insights and actionable recommendations to improve employee productivity and wellbeing. We'll evaluate your organization's financial and operational performance and provide a clear path to identify behaviors that produce the best outcomes. Neudesic harnesses the power of Microsoft Graph to use powerful predictive capabilities to gain immediate insights on how your organization collaborates.

We're ready to help you improve for breakthrough business performance.

Why it Matters:

Gain data-driven visibility into how work patterns affect well-being, productivity, and business performance. This engagement will provide your company:

- Personalized recommendations to create cultures where people and business can thrive
- Protect employee well-being that drive business results
- Identify best practices and insights into collaboration behaviors, workforce effectiveness, and employee engagement

The Benefits:

- ✓ Maintain business continuity
- ✓ Return to worksites
- ✓ Transform meeting culture
- ✓ Enhance organizational resiliency
- ✓ Employee collaboration
- ✓ Boost employee engagement
- ✓ Enhance operational effectiveness
- ✓ Foster innovation
- ✓ Accelerate change
- ✓ Increase customer focus

Our End-to-End Approach:

Neudesic offers a full suite of Viva Insights services to empower organizations with the behavioral and performance outcome data they need to improve performance and maximize the return on their WpA investment.
