Easy and secure access to data with reduced costs

Today Companies have different needs arising from smart working, abroad expansion, minimize on-premise costs and maintenance efforts.

CHALLENGES

- Not enough VPN connections available

- Users without company laptops

- LoB client/server application accessed from remote

- Activate a remote office without on-premise infrastructure

IDEAL SOLUTION

> Reduce the badwith/resources needed

> Standard desktop for all employees

> Make your LoB applications accessible

> Only Internet connection and workstations needed

DESIRED OUTCOMES

+ Make services available for all users and reduce on-premise resources

+ Simple management and support

+ Smart access to LoB applications from anywhere

+ Speed up remote office set-up management

Azure Virtual Desktop fast deployment

We use a proven methodology in order to speed-up the adoption of Azure Virtual Desktop and make the access to company data easier and faster.

1

MINIMIZE COSTS

Lower on-premise infrastructure costs and pay only for what you use

2

REDUCE RISKS

Secure your access to applications and company data

3

GET THE MOST FROM MICROSOFT INTEGRATION

Integrated Disaster Recovery with Azure Site Recovery

SoftJam fast implementation & Azure Virtual Desktop

Leveraging the benefits of Microsoft Azure and based on the experience on several projects, SoftJam made a proposition with a methodology for speed-up the deployment of Azure Virtual Desktop, reaching results on certain time and costs.

Sophisticated Security Services

Secure access to infrastructure thanks to Azure AD Security Services (MFA, Conditional Access, Intune MAM)

Granular Access Control

You can decide who accesses, in which way, to what using Azure RBAC

Isolated User Sessions

Ability to isolate user sessions whether VMs are dedicated or in "multi-user" mode

Move to Azure Virtual Desktop!
