mailguard 365

Phishing, Ransomware, BEC are things we never want to personally experience. **One email is all it takes to destroy your business.**

The challenge of email-borne cyberattacks is not a new one. It's a global epidemic that is crippling businesses, destroying reputations and having devastating economic repercussions.

EVERY COMPANY HAS HAPPY CLICKERS

"Every company has at least one employee who will click on anything, and that is pretty hard to protect against."

**Brad Smith,
Microsoft President & Chief Legal Officer**

MULTI-LAYERED SECURITY

Experts agree that a multi-layered approach to email security is required. Gartner reports that *'35% of client organizations that move to Office 365 are supplementing its natively available email security capabilities with a third-party product.'*

BOOSTING OFFICE 365 SECURITY

Businesses want a simple solution that enhances the value in Microsoft 365 by adding a specialist email solution to their security stack, without the need to train end-users or to configure and manage another admin console.

Microsoft

MailGuard 365

A world-first evolutionary approach that is collaborative by design, MailGuard 365 re-scans for new threats, inspecting email after it passes through your Microsoft Office 365 security stack and any other 3rd party email security vendors. It's the last check before your staff could make a catastrophic mistake.

STOP CRIMINAL INTENT EMAILS

Phishing, ransomware, BEC are things we never want to personally experience. Working on the inside of Office 365, MailGuard 365 re-scans & stops email threats after they have passed through Office 365, providing added protection for your business.

EVIDENCE-BASED REPORTING

With its new evolutionary approach, MailGuard 365 is last to inspect emails, allowing for evidence-based reporting that demonstrates its stopping power, and complementing upstream services like the Microsoft 365 security stack and any 3rd-party vendors.

ACCELERATED PROTECTION

Speed is the new currency, and MailGuard 365 leads the market in finding & stopping threats that may have slipped past Office 365 security. It stops advanced criminal intent email threats from reaching end-user inboxes.

MailGuard 365 + Office 365

Exclusive to the Microsoft Marketplace, MailGuard 365 is a cloud-based email security solution made better together by our collaboration with Microsoft to meet the needs of Microsoft 365 users. The world-class product combines 20+ years of specialized email security expertise and IP from MailGuard, with the best of Microsoft Azure and ML/ AI.

SINGLE-CLICK ACTIVATION

Activate enterprise-wide protection within a minute. No download required as MailGuard 365 works from the cloud and is activated with your Microsoft credentials. Your organization is protected with a single click, with advanced criminal intent email threats stopped immediately.

NO END-USER TRAINING

Designed to provide peace of mind for your end-users, MailGuard 365 operates in stealth within the native Office 365 environment. Threats are instantly moved to users' junk and deleted items folders, so no additional training is required.

EASY FOR ADMINS AND PARTNERS

For admins and partners it's easy too. No configuration is required for set-up, and there's no quarantine email to manage, or consoles to administer. Whitelists and blacklists in Office 365 are honored.

Customer success:
Funny Lumps

"After having a few near misses, we decided we needed to review our email security solution. Since implementing MailGuard 365 everything just runs itself.

I highly recommend MailGuard 365 to any organization that wants the ultimate protection of their Microsoft 365 inboxes."

– FUNNY LUMPS
(Not-for-profit supporting kids & young adults affected by Neurofibromatosis in Scotland)

FIRST TO STOP TARGETED EMAIL THREATS

"With our previous email security provider, we had to run manual updates on all employees' machines. This was an arduous and time-consuming process with many viruses slipping through the cracks."

ENHANCED EMAIL SECURITY

"Set up was easy and we get daily reports showing which threats are being picked up. It gives us peace of mind that it's doing its job and that we're covered. Dashboards are easy to use, and we get daily reports that we share with trustees of the organization. They are tangible proof that the solution is working."

RELIABILITY IS VITAL

Combining 20+ years of email security experience and IP with the best of Microsoft Azure. *"It's reliable, great value for money and their service is top notch. It doesn't matter where you are in the world!"*

Channel partner success: JASCO

"MailGuard 365 just works – we have been selling MailGuard for several years as the best-of-breed email security solution."

– TEAM LEADER, JASCO CONSULTING

COMPLEMENTING MICROSOFT 365

Jasco Consulting is a trusted Microsoft partner that provides information security solutions to manage clients' risks. So, it was concerning when clients using Microsoft 365 reported email threats slipping past their existing security filters. MailGuard 365 was a perfect solution, with daily evidence-based reports demonstrating the additional threats stopped.

PROTECTING SENSITIVE DATA

"The MailGuard 365 solution is just so simple to deploy, and it instantly protects our clients from email threats that slip through third party or Microsoft 365 email security."

SIMPLE SET UP & NO TRAINING REQUIRED

Best of all, MailGuard 365 is simple to set up with minimal disruption to clients. Activated with a single-click using your Microsoft credentials, no MX-record change is needed. Plus, it works in the native Microsoft 365 environment, so no end-user training is required.
