

Drive the modern finance agenda

The challenge

The CFO agenda is shifting to maintain the organization's performance.

32%

As they reinvent their businesses, nearly one-third of CFOs look to tech-driven products and services.

Our solution

Adopt a modern finance agenda to drive digital transformation with minimal disruption and right-sized implementation, with a platform that scales for growth.

Finance Ready, a tech-enabled service, accelerates implementation of finance capabilities with 50+ leading business processes and feature enhancements in the Microsoft Dynamics 365 platform in as little as 12 weeks.

Financial Transformation

Improve finance processes by 40%+ adopting **PwC's industry-leading** processes enabling standardization, efficiency, and scalability in the finance function to deliver deeper business insights.

Real-time Decisions

Connect process, people, and data to drive transparency and actionable insights into business decisions.

Risk and Compliance

Strengthen prevention and control to support business continuity, providing the functionality needed to aid risk and compliance support, ensuring the right segregation of duties and controls are in place.

Quick Adoption

Enable productivity with Microsoft cloud based anytime-anywhere access with standard browser user interface.

The Finance Ready Difference

How does Finance Ready help you?

Fast implementation

Almost 80% pre-configured ready out of the box finance solution with an intuitive and easy-to-navigate UI to ease employee adoption with low business disruption.

Built-in leading practices

Pre-built business processes and end-to-end finance capabilities for seamless operations and processes.

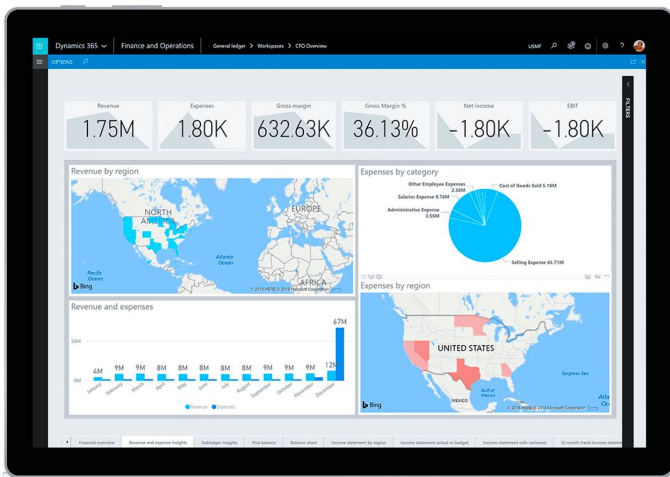

Right-sized solution

Enterprise capability aligned for your business and budget with a system that scales with growth

Finance Ready

PwC and Microsoft

Built on Microsoft Dynamics 365

Pre-built leading practice processes

Accelerate modern finance agenda with 50+ leading business processes focused on running integrated finance and accounting practices, maximizing decision speed and quality.

Persona-based dashboards

Manage enterprise performance with financial planning and analysis. Focused persona-based dashboards and reports help keep the finance team and the broader business on track.

Built-in help and support

Accelerate adoption and reduce support costs leveraging on-screen step-by-step process guides with visual “how-to” Task Recorders for training and knowledge stores.

Automated finance functions

Treasury, invoice, expense and payroll processing can be automated with integrations from leading providers leading to decreased errors and cost.

On-the-go access

Enable employee productivity with anytime, anywhere, on-the-go access and automations allowing you to fast-track profitability with connected people, process & data.

Seamless Microsoft integrations

Scale to business growth and continue the digital transformation with integration across MSFT cloud services and analytics.

Situation: A restaurant group wanted to scale their business across a wider geographic footprint, but was hobbled by legacy manual processes, weak business controls and low financial transparency.

Action: PwC implemented D365 Finance Ready with leading businesses processes and out-of-the box controls, integrations and automations.

Impact: With an accelerated Finance Ready implementation, the customer quickly leveraged the advantages of a modern finance platform with business controls and financial transparency, and automated interfaces to restaurant operations systems reducing manual inefficiencies and return to customer focus.
