

MICROSOFT TEAMS CONSULTANCY SERVICES FROM BRIMIT

Microsoft Partner
Gold Application Development

Help Your Team Accomplish More Together with Microsoft Teams

Customize or integrate Microsoft Teams, turning it into a sophisticated hub for all of your team's collaborative needs

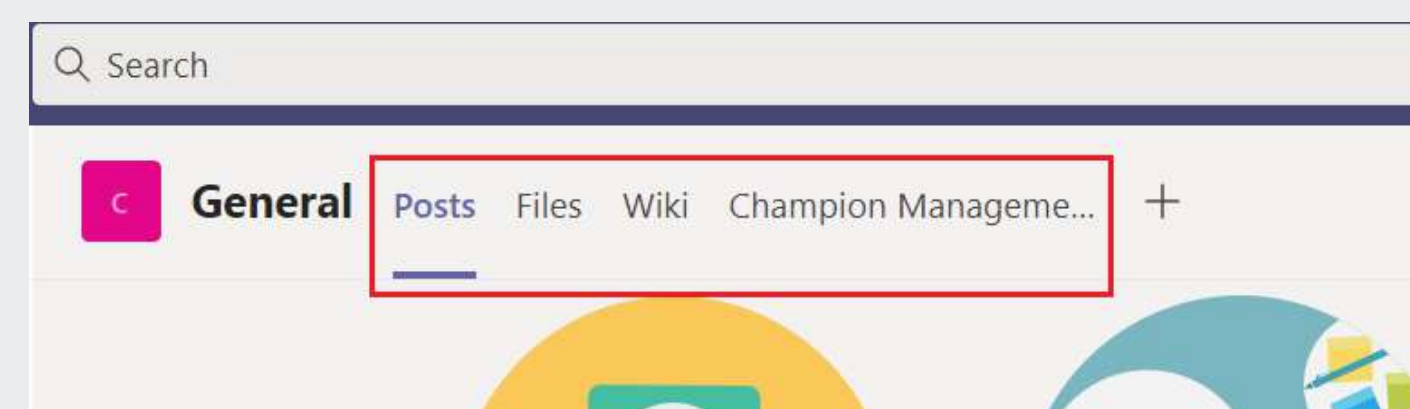

www.brimit.com | +44 (203) 966 8090

Teams can be extended in a variety of ways

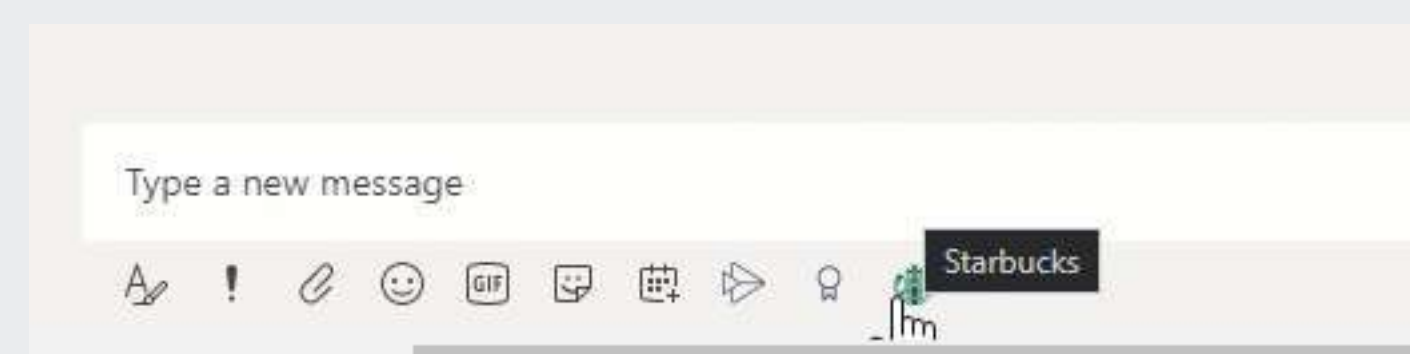

Browsing external data in the Teams tabs

Tab extensions

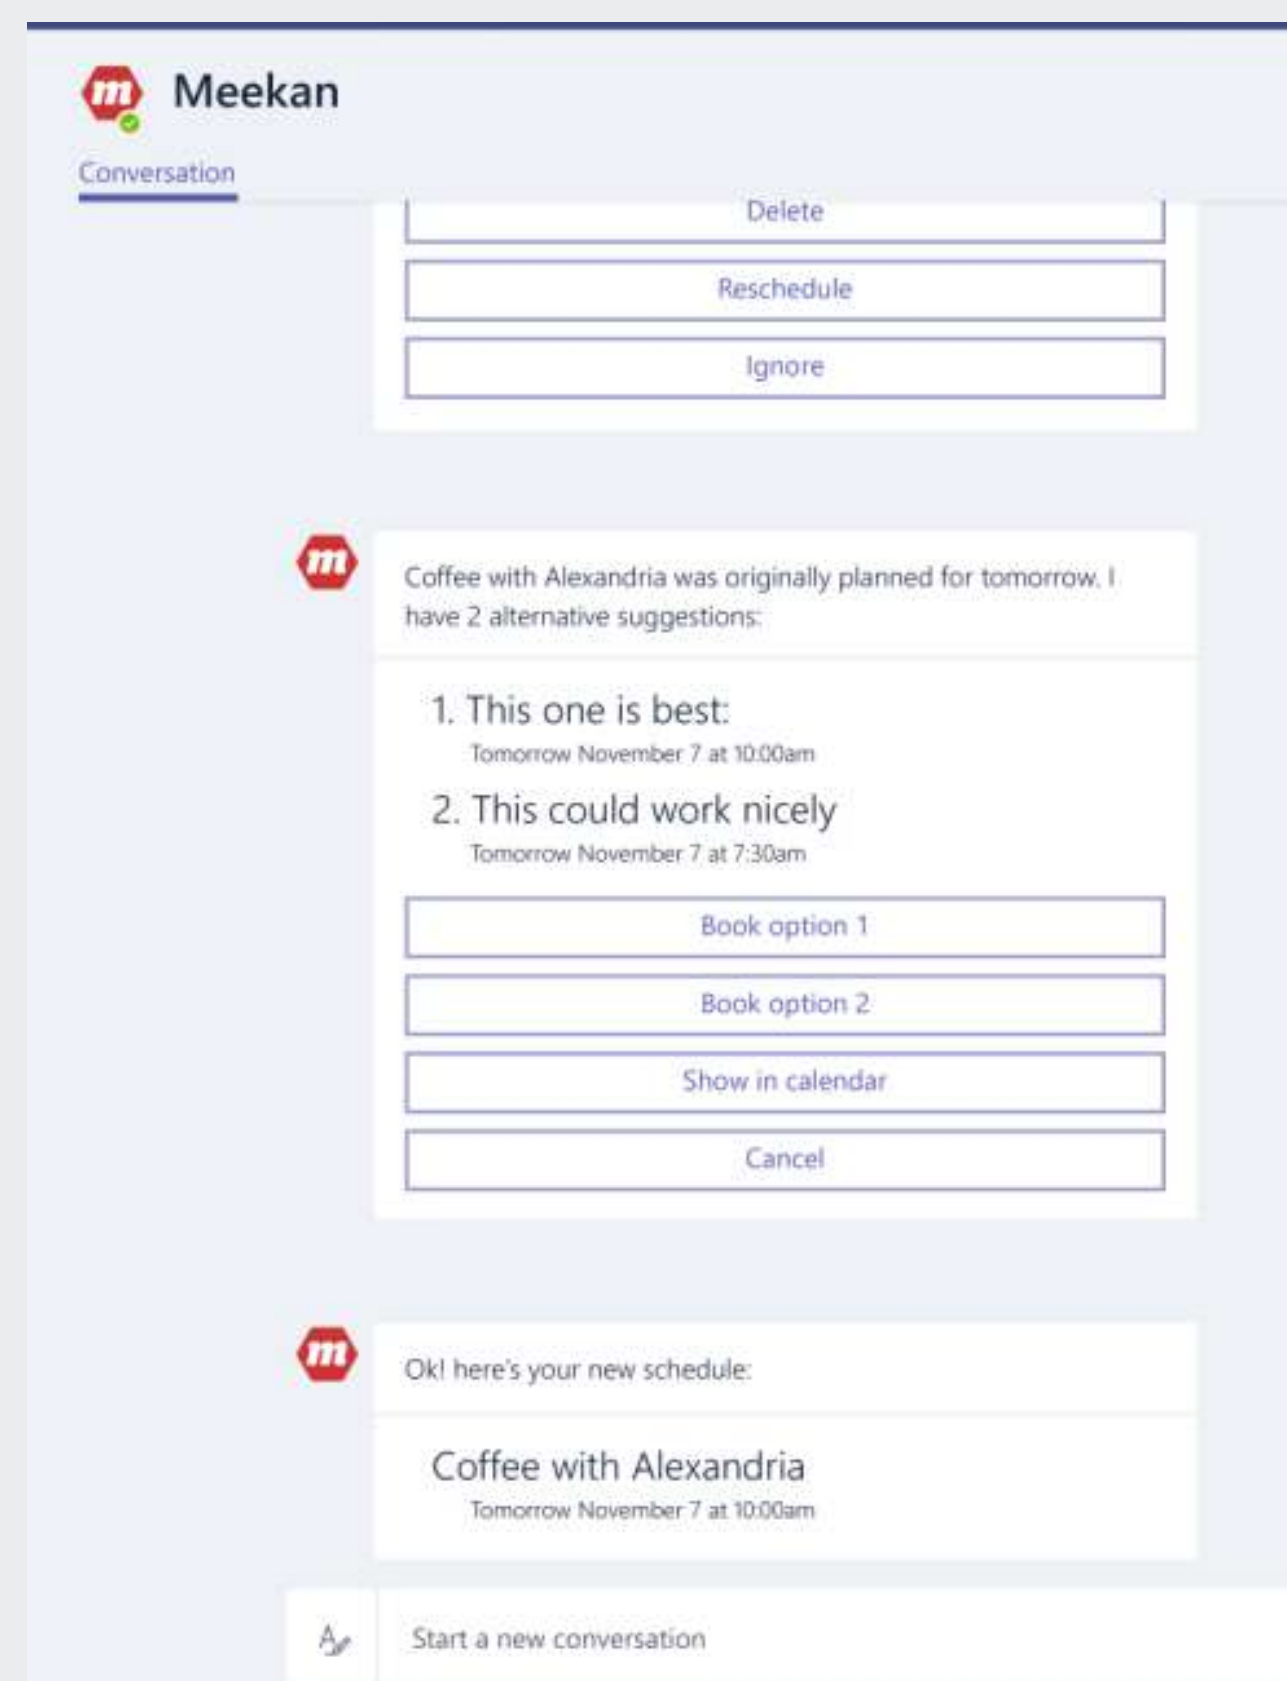

Searching for content in third-party apps and sharing it in chats

Messaging extensions

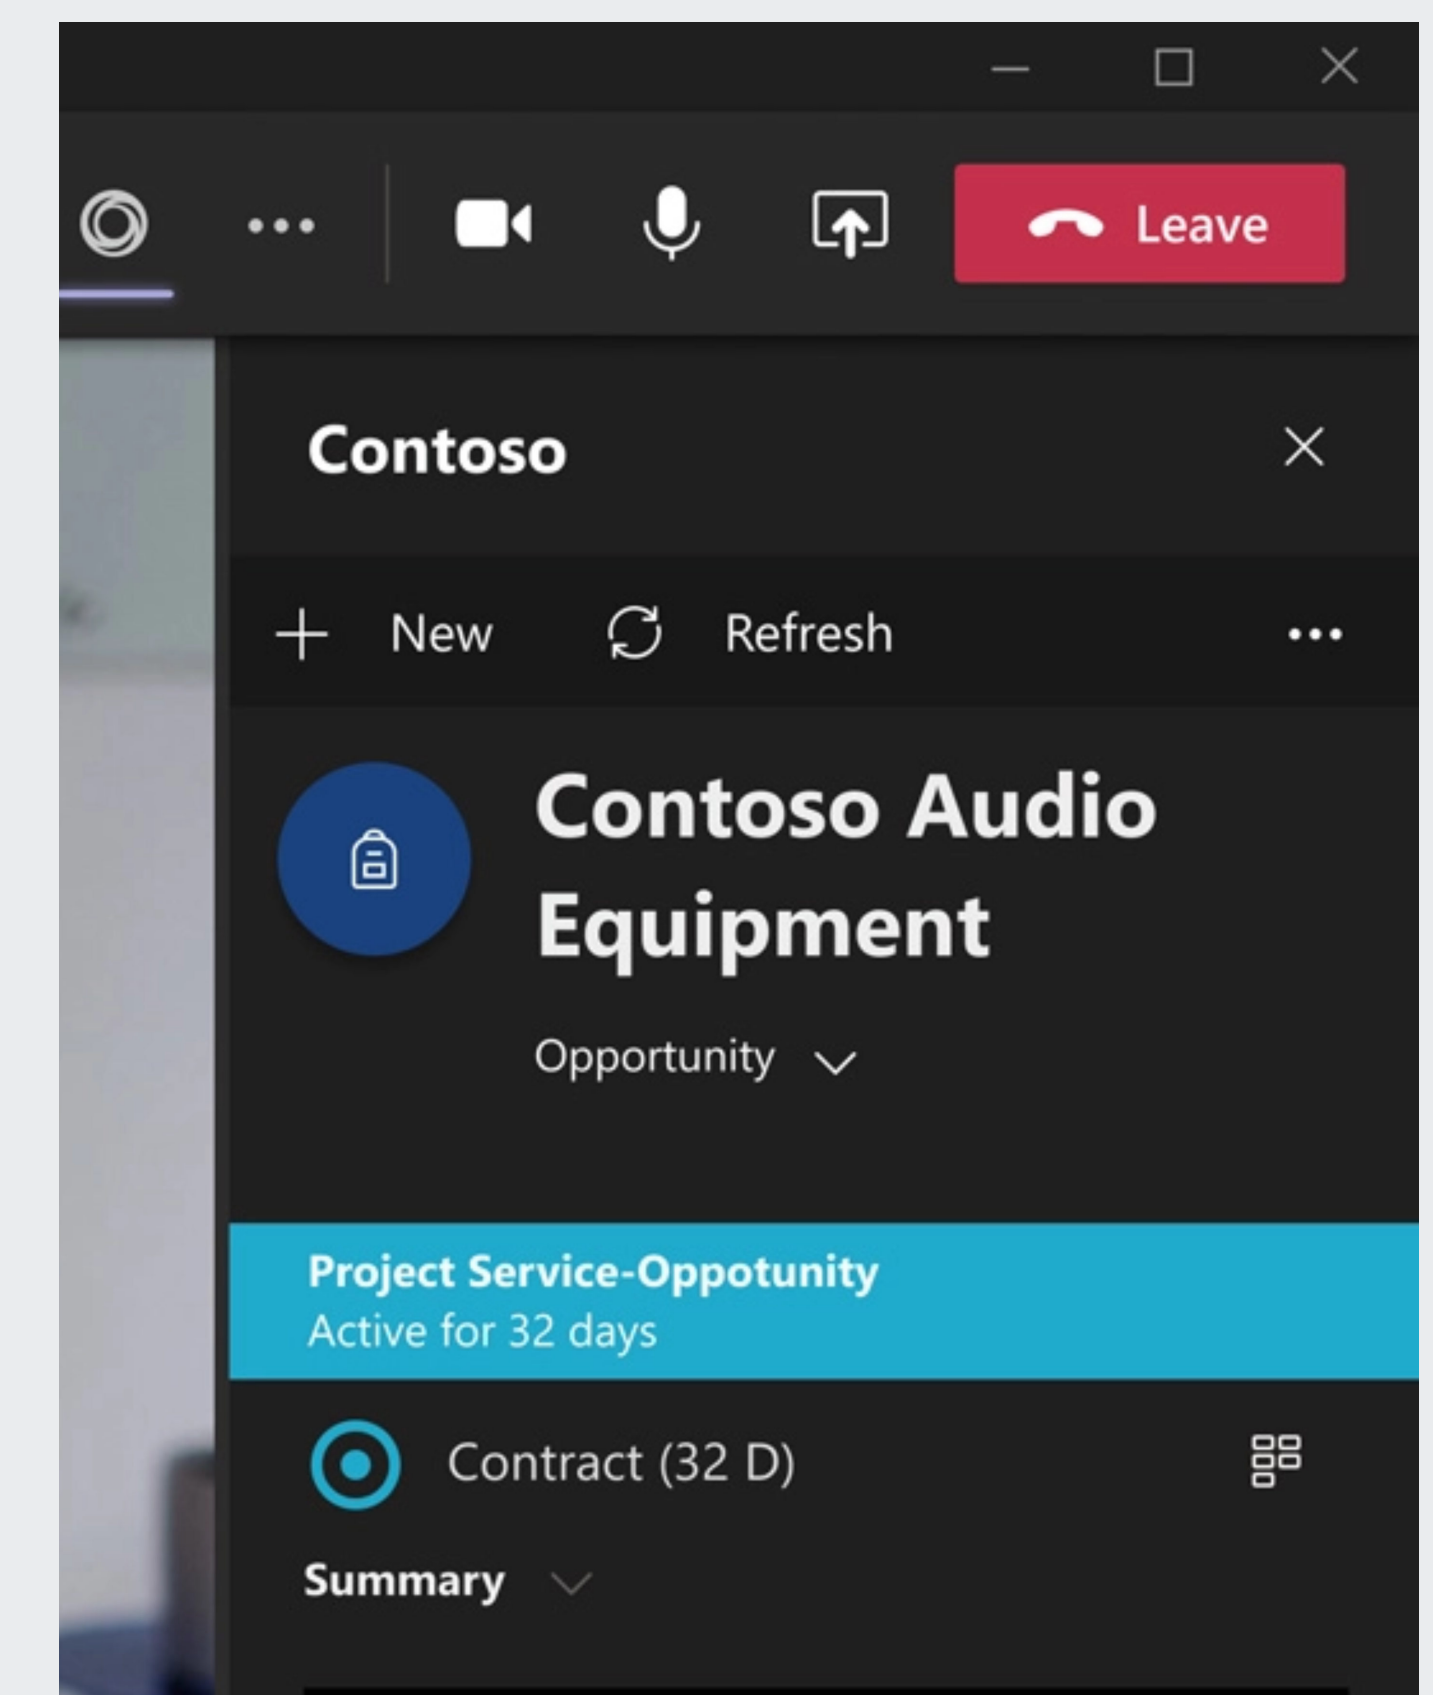

Employing bots for routine operations

Bots extensions

Enhancing the meeting experience

Apps for Teams meetings

Customizing or Integrating Microsoft Teams: 2-Hour Consultation

The consultation will help you understand how to fully integrate Teams into your work environment by enabling out-of-the-box apps and plug-ins and implementing custom apps, connectors, and bots.

How a consultation with Brimit experts goes:

We connect with your team and listen carefully to understand your business needs

We guide you through Microsoft Teams and share best practices for customizing the tool and integrating it with third-party apps or other Microsoft 365 products

We go offline for a couple of days and get back with a high-level roadmap and a strategy for accomplishing your goals with Teams.

Customer story

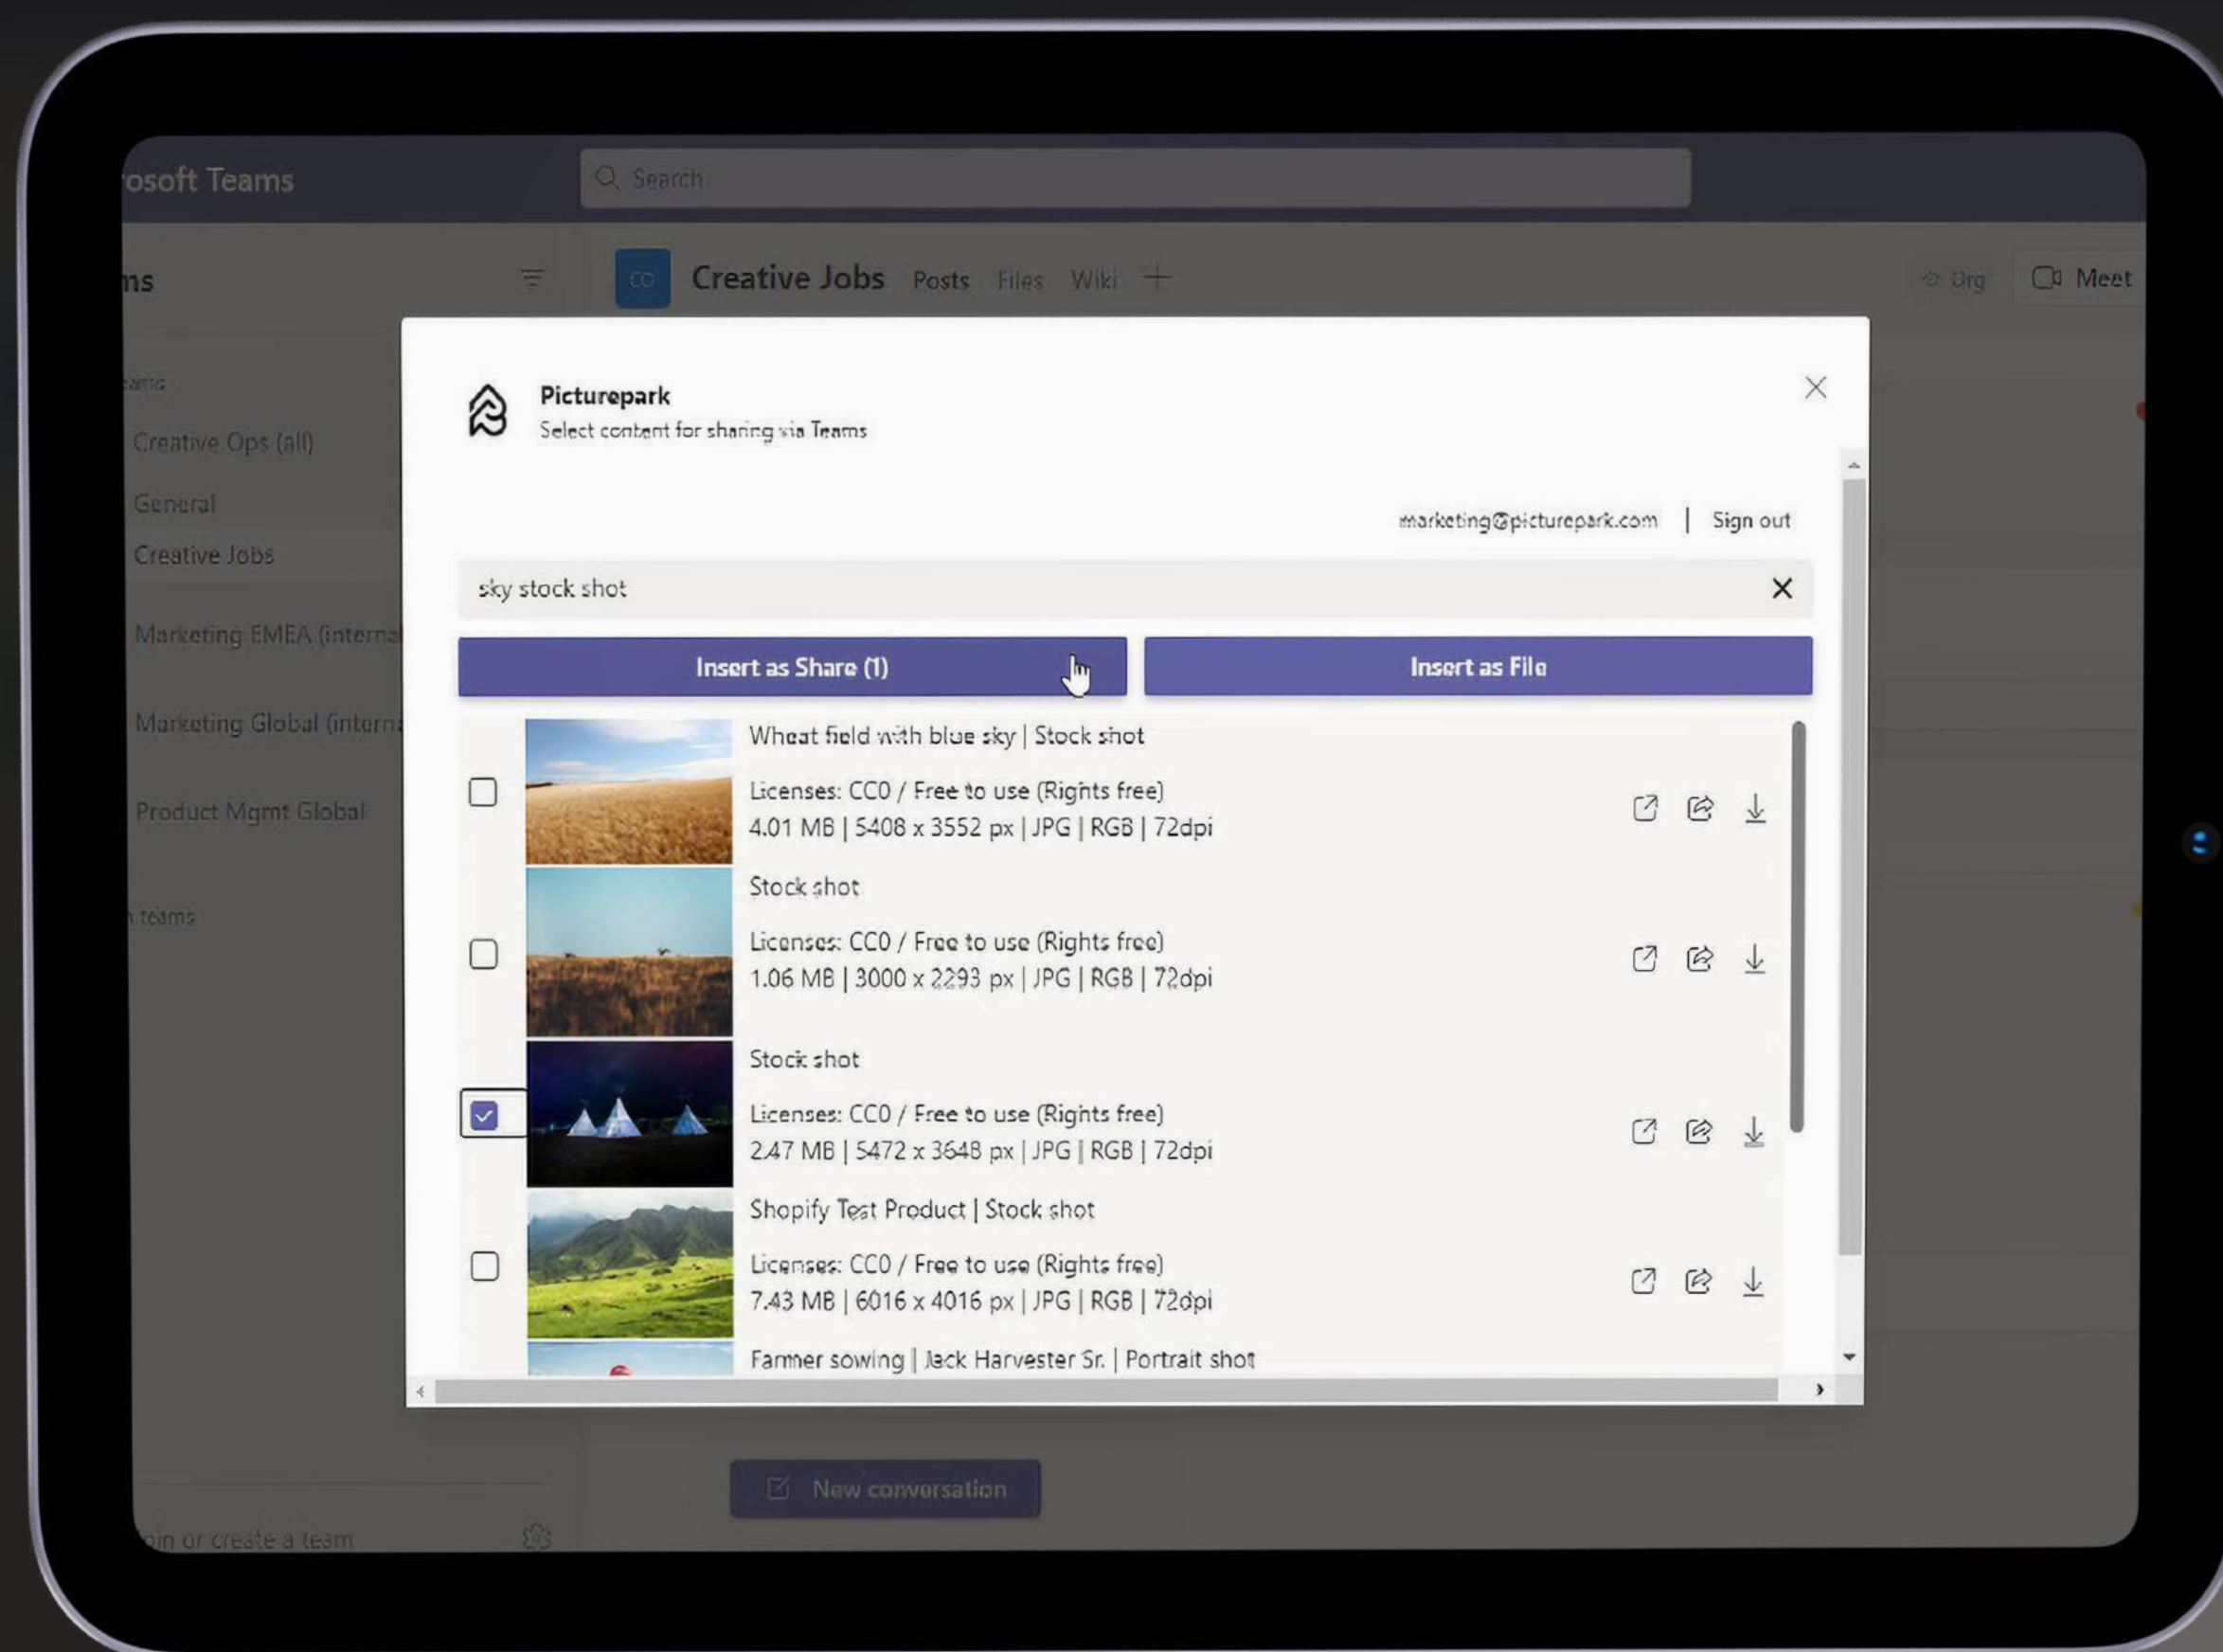

Picturepark

Picturepark has a 20-year history of delivering content management solutions that include perks such as masterdata, product information, and digital asset management.
