ACCELERATING CMMC COMPLIANCE FOR MICROSOFT CLOUD

Start your CMMC compliance journey on the right foot with the Microsoft cloud and Sirius, a CDW company

The U.S. Department of Defense (DoD) is implementing the Cybersecurity Maturity Model Certification (CMMC) to verify the cybersecurity of its supply chain. The certification encompasses five maturity levels with progressively more demanding requirements on processes and practices. CMMC impacts all organizations that provide goods or services to the DoD. DoD contractors and subcontractors are required to obtain the correct level of CMMC certification.

CMMC MICROSOFT 365 SECURITY SOLUTION ALIGNMENT WORKSHOP (SAW)

Our Solution Alignment Workshop will help ensure that your Microsoft 365 design and migration approach are in alignment with your organization's business and compliance requirements. This includes planning for the CMMC five-level cybersecurity certification ranging from "Basic Cybersecurity Hygiene" to "Advanced/Progressive."

MICROSOFT 365 SECURITY AND COMPLIANCE PLANNING

- Identify project goals and objectives related to your business, security, legal, compliance and regulatory
- Conduct Microsoft 365 Security Solution Alignment Workshop
 - Review Microsoft Compliance Manager and its ability to manage CMMC controls
 - Review the estimated controls relating to CMMC Level 3 and Microsoft 365
 - Review CIS Microsoft 365 benchmarks and how they can help secure a Microsoft 365 tenant
- Create Microsoft 365 CMMC recommendations for Microsoft 365 Compliance document including:
 - Findings and Recommendation Report
 - Microsoft 365 Implementation Plan
 - Microsoft 365 Technical Design
 - Microsoft 365 Security Hardening Framework

If you know your company will need CMMC certification or are looking to get a jump start on readying for the certification, Sirius is ready to help you get started on your CMMC compliance journey with the Microsoft Cloud. We will help you find capabilities across Microsoft 365 and Azure that map to your target CMMC Maturity Level, as well as your organizational requirements.
