

# Ready to Dynamics 365 BC: 1-Day Proof of Concept

**SERVICE TYPE:**  
WORKSHOP

**PRICE:**  
FREE

**We offer 1-day proof on concept meeting (in English or Russian) to demonstrate how you can optimize your business processes with Dynamics 365 Business Central. You are welcome from any country.**

Before holding this meeting we need to get information about your current business processes, as well as find out your requirements for changing and optimizing processes. Next our lead specialist will analyze your processes and requirements and understand how Dynamics 365 Business Central meets your expectations.

At the meeting, our specialist demonstrates the standard functionality of Dynamics 365 Business Central, showing how your requirements will be covered by the standard functionality of the solution and telling you what customizations will be required. In addition, our specialist can recommend you to pay attention to other solutions from the Microsoft 365 ecosystem if they help you to implement your requirements with the greatest efficiency.

If we understand that Dynamics 365 Business Central is not suitable for you and you need a different class of system, our specialist will give you all the necessary recommendations at the meeting (reduced timing).

The meeting is held online.
