Capabilities

Scheduling
Automate delivery schedule management and empower customers with the capability to pick their own delivery slots.

Pickup
Achieve app-driven pickup allocation, booking management, label generation and transcend traditional ecommerce boundaries.

Cross Dock
Cut short order processing time with organized and efficient handling of shipment at the cross-dock.

Long Haul
Optimize long haul movement of your logistics operations through real-time, IoT-driven visibility.

Dynamic Routing
Achieve route optimization in real-time and improve driver miles per hour significantly with better fleet utilization.

Driver Orchestration
Onboard, manage and allocate jobs seamlessly to partners and crowdsourced drivers.

Last Mile Operations
Automate job allocation, route planning and seamlessly handle customer requests.

Personalized Deliveries
Personalize the experience with flexible delivery options & seamless customer communication.
From Siloed To Scalable And Efficient Operations

1. Long Haul
   - Predictable Incoming Load ETAs
   - Improved Capacity Utilization

2. Cross Dock
   - Reduced Inventory Ageing
   - Improved Turnaround Time

3. Dispatch
   - Speedy Issue Resolution
   - Improved Perfect Order Index
   - Better Compliance Adherence

4. Final Mile
   - Increased Delivery Throughput
   - Better Routing Efficiency

5. Customer
   - Improved Net Promoter Score
   - Improved First Attempt Rate
FarEye is a machine learning based predictive logistics platform for businesses to execute, track, collaborate, predict and optimize movement of goods. It helps businesses achieve growth, happier customers and higher margins.
