

Modern Workplace Jumpstart: Your Next Generation Workplace

ABOUT APPSPHERE AG:

AppSphere implements mobile and future-proof IT workplace concepts, solutions, and support for transforming business processes. We provide a holistic approach and long-standing expertise in creating the next-generation workplace.

See what customers are saying:

"„The workshop addressed all my questions that has not been answered so far. Within a few hours I gained new perspectives on cloud services – especially in regards to flexibility and the variety of functionalities. They provide added value for the entire company and therefore I am now more than convinced. AppSphere has done really a great job!"

– Thomas Reitz, Executive Vice President ICT & CIO Group IT
NORMA Group Holding GmbH

WHAT WE OFFER

In order to successfully implement Modern Workplaces (AppSphere Next Generation Workplace), companies need to be aware of the objectives pursued. Only those who know their goals can probe needed tools and take actions. A Modern Workplace will increase the maturity level of IT / digital transformation and will raise the competitiveness and attractiveness for needed skilled employees.

AppSphere's **Modern Workplace Transformation Workshop** (cost typically between 8K – 15K EUR depending on agreed scope) supports companies to identify the status quo regarding their organization, objectives and requirements as well as to define targets. Based on customers IT & business processes, our Transformation Consultants will develop a customized target IT architecture/landscape that is heavily based on modern Microsoft cloud solutions like Office 365 and Azure services, to meet demands for mobility, collaboration & communication, speed, productivity, lower IT cost etc.

Deliverables of the workshop are documented within a presentation **(20 – 50 slides depending on scope)**:

- Clear understanding of user roles and use cases / Clear understanding of current IT
- Design principles that guide the Modern Workplace design
- Visualization of target architecture and services design
- Very detailed roadmap with a timeframe of **~2-4 yrs**
- Identification of Quick Wins, that will leverage value add in a very short timeframe

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
