

Anitian & Microsoft Azure

# FEDRAMP SOLUTION BRIEF

*The fastest path to FedRAMP compliance.*

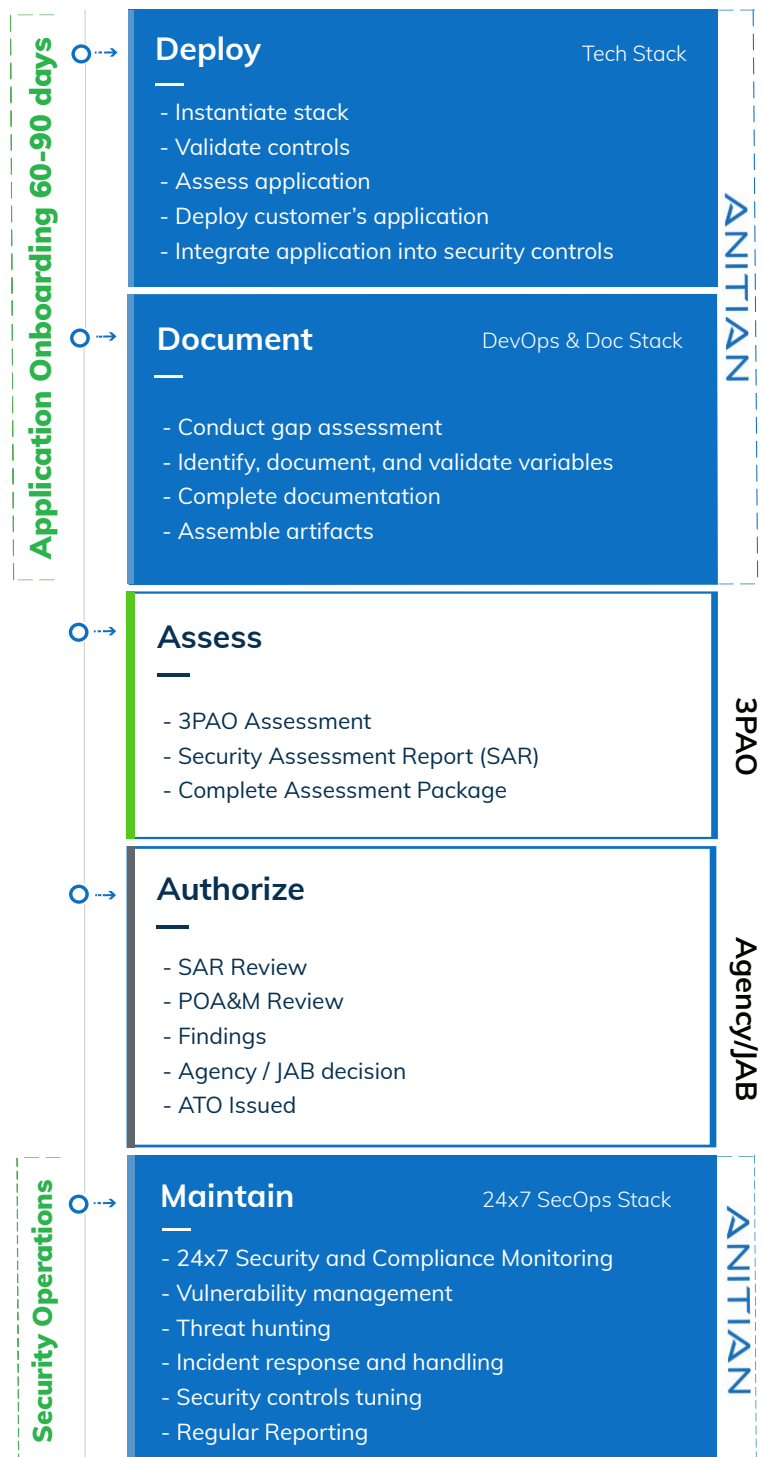

FASTER TIME-TO-MARKET. FASTER TIME-TO-REVENUE.

# A proven, accelerated path to FedRAMP ATO on Microsoft Azure

The Federal Risk and Authorization Management Program (FedRAMP) is a complex and resource-consuming process, but it doesn't have to be. Anitian's Compliance Automation for FedRAMP is the only proven and pre-built platform designed to dramatically accelerate your FedRAMP Authorization process, all while saving you time and money.

## THE FEDRAMP JOURNEY

COMPLIANCE AUTOMATION PLATFORM

# A complete cloud security and compliance platform

## Pre-engineered for FedRAMP automation

Built from the ground up, Anitian's full-stack solution directly integrates with DevOps CI/CD pipelines and includes technologies, configurations, documents, licenses, and onboarding to make existing or new cloud applications secure and compliant in up to 80% less time and at 50% of the cost. Unify your FedRAMP journey with the fastest, easiest, and most reliable path to FedRAMP ATO on Microsoft Azure.

### Compliance Automation Platform

#### Tech Stack

All security controls licensed & pre-configured.

Endpoint Security	Perimeter Security	Key management
Compliance guardrails	Zero-trust access rights	SIEM / Log management
Vulnerability management	Web application scanning	Web Application Firewall (WAF)
Service / Asset registration	Container security	Certificate authority
Multi-factor authentication	Identity repository	Configuration management
Encryption (FIPS-140 compliant)		Outbound proxy with URL filtering

#### DevOps Stack

Rapid application onboarding.

Code snippets	CI/CD integration	DevOps support
Pre-engineered scripts	Reference architectures	Hardened images

#### Doc Stack

Documentation templates & automation.

Automated doc. generation	Audit-ready templates	Compliance advisory
Central artifact repository	Audit support	Project management

#### SecOps Stack

24/7/365 security operations.

24x7 USA SOC	Weekly reports	Change management
Incident handling	Penetration testing	Threat hunting

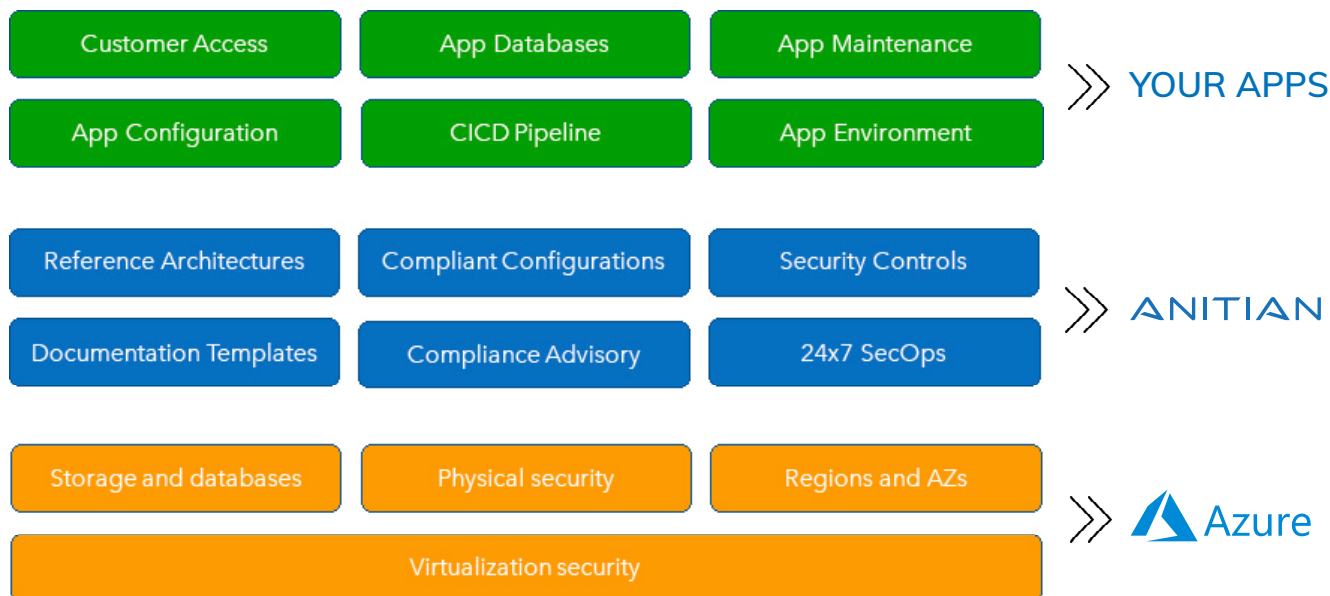

### Microsoft Azure Native Products and Services

The Anitian Compliance Automation Platform instantiates, configures, and optimizes these native Azure services to FedRAMP requirements.			Azure Lighthouse	Azure Firewall	Azure Monitor	Azure Policy
Azure Active Directory	Azure Bastion	Azure Blueprints	Azure Sentinel	Azure Security Center	Azure Virtual Machines	Azure Key Vault
Azure Active Directory Domain Services	Azure Resource Manager	Azure Application Gateway	Azure Log Analytics	Azure Network Watcher	Azure Virtual Networks	Azure Defender ATP

ARCHITECTURE AT-A-GLANCE

# Compliance Automation Platform

The Anitian Compliance Automation Platform is the security and compliance layer between your DevOps activities and your Microsoft Azure hosted environment.

## Anitian’s proven, pre-built platform delivers the fastest path to security and compliance, helping you get your cloud applications to market fast.

Anitian’s unique cloud environment dramatically reduces configuration and customization time through automated configuration tools, reference architectures, template libraries, documentation generators – as well as security policies, alerts, and reports – that enforce security best practices and compliance with FedRAMP, PCI DSS, CMMC, and other standards.

- > **80% less time**  
 Get your cloud apps to market in weeks – not months or years.
- > **50% less cost**  
 Reduce the risk of delayed projects and cost overruns.
- > **Pre-built for automation**  
 Remove the complexity of cloud compliance and migration.
- > **Optimized for Azure**  
 Pre-engineered platform specifically designed to use native Azure tools and security controls.

ACCELERATE YOUR TIME-TO-REVENUE

# Azure FedRAMP accelerator packages

Choose the Anitian Compliance Automation Platform package option that is right for your application. All packages deliver a complete, automated security and compliance solution that allows DevOps teams to remain agile and stay focused.
