

# HSO Accelerated Finance

Leverage the knowledge and support of an experienced HSO team to transform your Finance Department into a modern digital workspace that is scalable.

## Why Customers use

### HSO Finance Best Practice Toolkit

- Transformation to a modern digital Finance department within a much shorter timescale
- An experienced team to guide and support a vanilla, out-of-the-box solution
- Structured framework enabling project team engagement throughout the implementation cycle
- Drive standardisation of business processes and adopt best practices
- Enable hands on involvement from the beginning which embeds product knowledge and supports change management
- Reduce the cost and time of ERP implementation

## What is HSO Accelerated Finance?

A Finance Best Practice Toolkit which works in conjunction with HSO Excellerate Methodology and Project Governance, by providing a structured framework, enabling project team engagement throughout the implementation cycle. It acts as an enabler to kick-start the customer product familiarisation journey with hands-on involvement from day one, allowing a platform for knowledge transfer from the HSO team.

### Enhanced Insights

- Kick-start the product familiarisation journey with hands-on involvement from day one
- Quickly gain an understanding of standard processes and how Dynamics 365 would work for your business with product-led guided workshops
- Adhere to Audit compliance and segregation of duties
- Access powerful, embedded BI reports and role-based workspaces

### Increase Efficiency & Performance

- Reduce reliance on multiple Excel spreadsheets
- Reduce manual intensive tasks
- Standardise Finance processes
- Enable quick access to data and reports with real-time drilldown to transactional level
- Reduce Month End timetable

### Adapt & Extend

- Gain deeper insights into your data
- Remove siloed reporting
- Automate processes further with Power Platform
- Extend functionality and modules across the wider business
