Advanced Behavioral Threat Detection and Collective Defense for Microsoft Azure

Network Detection and Response for Microsoft Azure

IronDefense for Azure is the industry's only Network Traffic Analysis (NTA) and collective defense solution for hybrid cloud networks. IronDefense applies proven behavioral analysis techniques and packet-level cyber hunt to detect threats capable of evading traditional cybersecurity tools.

WHAT WE OFFER

Superior behavioral detection for Microsoft Azure

IronDefense leverages proven analytics, Machine Learning (ML), and Artificial Intelligence (AI) techniques used in real-world defense against sophisticated nation-state-level threat actors.

Unparalleled scalability across hybrid cloud environments

IronDefense scales from small companies to Fortune 100 companies to deliver unmatched behavioral detection across Azure, on-premise, or multi-cloud environments.

Real-time threat visibility, sharing, and collaboration across companies, sectors, and nations

IronDefense works with our IronDome collective defense platform to deliver the industry's only real-time threat visibility, sharing, and collaboration solution that helps security operations teams defend against targeted and unknown threats.

Unparalleled expertise and superior service

IronNet delivers a superior experience for clients that helps their security teams plan, implement, integrate, and operate IronDefense in Azure. No other company provides the same level of cyber defense expertise or customized service.

WHAT OUR CUSTOMERS ARE SAYING

As we look to defend our estate as it integrates with various cloud environments, we were impressed by IronNet's capabilities, especially in side-by-side testing with other analytic and detection platforms in the market today."

– Richard Puckett, former VP Security Operations Strategy and Architecture, Thomson Reuters

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
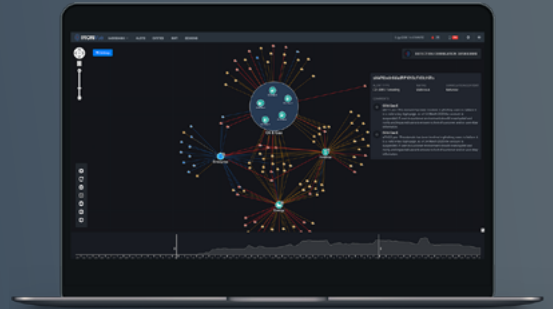

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
