

# ADA – Analytics Development Accelerator

## Reduced development time with +70%

In a cloud enabled world, automation is key in all processes. Development of data flows in Azure is no exception. Data flow automation allow you to stay on top of projects instead of slowly becoming obsolete.

### SIMPLE

- Monthly subscription
- Your own Azure tenant – secured and independent
- Stand-alone result as Azure Data Factory jobs in customer tenant

**Zero risk for lock-in**

### QUALITY

- Implements Enfo Azure Analytics Reference architecture
- Log management
- Integrated version control
- Automated job dependency tracking

**Reference architecture**

### FAST

- Metadata driven development
- Code templates for recurring scenarios
- Integrated deployment

**Rapid development**

## The solution - ADA

ADA is an Azure software-as-a-service that does ELT Automation for Azure Synapse and Azure Data Factory to maximize your Analytics project progress. Metadata driven development, version control and integrated deployment and documentation to boot!

## The value

We make sure that your Analytics project is rapidly delivering business value.

- 5-user monthly subscription to start
- Establishes an analytics development process in hours
- Reduced development time with +70%
- Simplicity of a fully hosted Azure SaaS ELT automation tool
- Integrated version control and deployment process
- Monthly subscription without lock-in result
