

Quickly deploy (or “re-deploy”) MS Teams with strong (yet flexible) governance, leading to increased adoption

Modern Workplace Quick Start

Offering Highlights

Quick, 3-week engagement that implements the most critical aspects of Teams governance

Simple, easy-to use, beautiful tool for end users, team owners, and IT admins – makes the hard work easy for everyone!

Can be used for organizations who are just starting in Teams, or want to do a “restart” of their Teams

Getting your MS Teams project off to the right start is even more important in today’s rapidly changing world. Doing it correctly right from the start is critical and this offering makes that possible. We focus on implementing a well-controlled, yet flexible governance approach in order to increase adoption while minimizing IT headaches.

The modern quick start using the Orchestry tool is a way to help ensure effective and safe collaboration for organizations getting started with Microsoft 365. Leveraging the power of Microsoft 365 to create collaborative experience and Orchestry to ensure adoption and governance, the Modern Workspace Quick Start is the most effective way to ensure that you drive successful usage of Microsoft 365 in your organization.

This is right for you if you have:

- Invested in M365 but haven't deployed Teams or SharePoint yet for collaboration
- Are new in M365 and want to start quickly and correctly to ensure great adoption and governance
- Want to restart your Teams and SharePoint initiatives
- No strategy of how M365 Teams or SharePoint sites will be used to drive value in the organization
- A need for a rapid deployment of Teams or SharePoint done in a way to future proof any issues
