

BYTES CLOUD SECURITY SNAPSHOT

A single viewpoint from which to secure your cloud

Continuous audit and assessment is vital to avoid cloud misconfigurations, compromises and breaches. Bytes free Cloud Security Snapshot provides complete visibility of your public cloud assets and their compliance across Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform or all three combined. A clear, detailed and complete security map of your cloud architecture – with results within an hour – at no cost.

Assessing Security Posture

Detecting Misconfiguration

Modelling and Enforcing Best Practices

Protecting against Identity Theft

Protecting against Data Loss

This service offers you Check Point's award-winning CloudGuard Dome9 cloud compliance solution for 30 days, at no cost, so you can detect and plug your cloud security and compliance gaps.

The result – A true picture of your cloud assets & compliance across multiple public clouds.

Cloud Assets Configuration

Identify which applications and workloads you have running on the cloud.

Public Exposure Levels

Understand the applications and workloads that are public-facing and more vulnerable to threats.

Network Topology

Review your network layout and understand areas prone to threat exposure.

Security Groups

Discover and classify your security groups by varying exposure levels.

Traffic and User Activity

Review how applications and workloads interact and the traffic associated.

What does this service include?

This exclusive service gives you real time insight into your cloud security posture quickly easily, and includes:

- Onboarding of multiple cloud platform accounts
- An overview of any security issues that are identified by the platform
- The ability to run a continuous compliance ruleset on each account
- Remediation steps against best practice

Simple to set up – Results within an hour

Bytes set up your trial CloudGuard Dome9 account. Within 15 minutes, your cloud platforms are connected. You start to see results within an hour. You gain a clear, detailed and complete map of your overall public cloud health. **For 30 days at no cost and obligation.**
